THE PRESBYTERIANS.

The New School General Assembly.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, May 26.—In the New School Presbyterian Assembly to-day invitations were accepted to unite with the Kings County Memorial Committee of Grand Army of the Republic in the ceremony of decorating the soldiers' graves next Monday.

The Committee on Ministerial Relief reported a layman has given $3,200 towards the proposed fund of $200,000 for the relief of the ministry, and recommended an annual collection for the same purpose. The report was adopted.

The Standing Committee on Home Missions made a report, claiming a large proportion of immigration is Protestant, and that this disproportion will always continue. The Committee recommend church extension, increased efforts towards christianizing the Chinese in this country, the establishment of mission schools in cities and reunion of domestic missions. The report was adopted.

The Standing Committee on Freedmen reported the work of educating and christianizing the freedmen as proceeding vigorously. Seven ordained Missionaries and one hundred teachers have taken the field, and many others not appointed. Only $15,000 was subscribed last year. The Committee want $100,000 this year. The report was adopted.

The Church Erection Committee reported that over one thousand churches failed to contribute to the fund during the past year, and that greatly increased appropriations were needed for the coming year. During the year one hundred thousand dollars should be expended in the cause at the West. Collections in the churches are recommended. Rev. Drs. Smith, Burchard and Seaver and Mr. Barnum are proposed for a new committee, the term of the present committee having expired. The report was adopted.

The Committee on Education reported three-fourths of the Church had not contributed the past year. Two hundred and eighteen candidates for the ministry have been relieved.

Rev. Drs. Seward, Poor, Wickes and Benedict and Mr. James are proposed as a new committee. The report was adopted.

Rev. Dr. Fisher, of the Joint Committee on Reunion, announced that the report of the Committee would be submitted to both Assemblies simultaneously to-morrow morning.

At the afternoon session the report of the Committee on Religious Narrative was read, giving a list of the pastors who died within the year, stating the condition of the churches and Sabbath Schools, and reporting that three hundred churches are now without pastors.

The report was adopted.

Rev. Dr. Ormiston, from the Synod of Canada, made an eloquent address in favor of reunion.

At the conclusion of Rev. Dr. Ormiston's remarks, the Moderator made an address, expressing the pleasure afforded him and his religious brethren to see among them a representative of the Canadian Presbyterian Church.

The discussion on the reports of the Committees on Missions and Education was resumed and continued to the hour of adjournment.

A invitation to participate in devotional exercises to-morrow morning with the Old School was received and accepted, when the Assembly adjourned.

The Old School General Assembly.

In the Old School Assembly, to-day, the Committee on Board of Education made a favorable report on the records of the Board and of its Executive Committee.

A paper was received from the General Synod of the Reformed Church, recommending a plan for a National Council of Evangelical denominations of the United States, for advisory measures for promoting fraternal union and the maintainance of common doctrines of the Christian church, to be held in New York in October next. Referred to a Special Committee of three ministers and two ruling elders—Revs. J. B. Waterbury, T. H. Skinner, Jr. and S. Miller, and Elders A. B. Belnap and J. F. Nixon.

The Committee on Disabled Ministers' Fund, reported the receipts of the year at $32,762, and disbursements, $28,529. Fifty ministers, seventy-five widows and twelve families of orphans have been relieved.

An invitation was received from the Grand Army of the Republic of Kings county, to attend the ceremonies of decorating soldiers' graves next Monday.

Rev. Dr. J. R. Taylor, as representative from Reformed Church of North America, and Rev. Dr. Ormiston, from Presbyterian Church of Canada, made addresses in favor of reunion.

At the afternoon session the reception of delegates from corresponding bodies was continued, and similar addresses made by Rev. Wm. Brice, of the United Presbyterian Church, Rev. Wm. Adams and Hon. Wm. E. Dodge, of the New School Assembly.

The Moderator replied in suitable terms.

The discussion on an appeal from the Assembly of Illinois, in relation to making the office of Elder for a term of years instead of being for life, was then resumed. A majority of the speakers were in favor of the former plan.

The Assembly adjourned without taking a vote on the question.

The Basis of Reunion.

It is understood the Conference Committee of the two Presbyterian Assemblies has unanimously agreed to recommend reunion on the basis of the standards, pure and simple, the basis to be submitted immediately to the Presbyteries for approval, and that the two Assemblies adjourn to meet in Pittsburgh in November to receive reports of the action of Presbyteries thereon. It is also understood the Committee will submit a form of declaration to be made by each Assembly, instead of the articles adopted by the last Assemblies and rejected by the Old School Presbyteries, the action of the Assemblies on this declaration to be final. The report will undoubtedly be adopted by both bodies.

Southern Presbyterian Gen'l Assembly.

MOBILE, May 26.—In the Presbyterian General Assembly the greater part of the morning was spent in the discussion of a plan for the evangelization of the blacks. Dr. Girardeau made an able speech in favor of the plan which was recommended. It provides that where practicable Presbyteries may organize separate colored churches, to be supplied for the present with white pastors and ruling elders of their own color. Pastors of white churches are to supply these pulpits as far as possible. Suitable colored exhorters may be employed, under the direction of pastors. When colored candidates for the ministry show themselves fitted for ordination, they may be ordained, with the understanding that they shall henceforth be ecclesiastically separated from white ministers and people.

NEW ORLEANS.

The Commercial Convention — Second Day's Proceedings.

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, May 26.—The Commercial Convention assembled this morning, but the committees being unprepared to report, it adjourned, after some unimportant business, to this afternoon.

On reassembling at three o'clock, several committees presented reports.

The Committee on Western Trade presented a communication, with resolutions, looking to the encouragement of iron barges for the transportation of freight on Western rivers.

The Committee on the Removal of Obstructions from the mouth of the Mississippi river recommended the appointment of a Committee to prepare a memorial to Congress, demonstrating the national importance of the objects referred to and asking Congressional attention, and that the President of the Convention be instructed to forward copies of the resolutions and the memorial to the President of the United States and each Senator and Representative in Congress; also, that the Committee be directed to apply without delay to the President and the United States Engineer Bureau for an assignment of a portion of the general appropriation for river improvements, to be expended in the speedy construction of the work already commenced at the mouth of the Mississippi.

The Committee on Levees presented a communication, endorsing the resounding bill presented to Congress at the late session, and providing for national aid in the construction of levees.

The Committee on the Pacific Railroad presented majority and minority reports. The majority report favors a direct route from Cairo to Mazatlan. The minority favors the Memphis and El Paso Grand Trunk, with branches to various points South.

Mr. Williams, of Tennessee, in presenting the minority report, made a brief speech, advocating the route as being within the territory of the United States, and opposing the route touching foreign territory. His remarks were received with applause. The reports were generally voluminous. They were ordered printed, and made the special order for to-morrow morning.

THE CAPITAL.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, May 26, 1869.

RETURNED FROM ANNAPOLIS.

President Grant and party returned from Annapolis, Maryland, this evening. A. R. Corbin and bride, the President's sister, arrived to-night, and are stopping at the Executive Mansion.

CONCERNING NATIONAL BANKS.

The Attorney General, at the request of the Comptroller of Currency, has given an opinion that National Banking Associations cannot legally be converted into State Banks, and thus relieve themselves of obligations under the National Bank Act. The question comes up in a case of the National Farmers and Mechanics Bank of Albany, New York, which claims to have been converted into a National Banking Association under an act of the New York Legislature, adopted April 20th, 1857. The Attorney General says "I am of the opinion that it is not within the power of the Legislature of New York to alter, modify, add to, or diminish the powers, duties, or liabilities created or conferred upon a Banking Association established under an act of Congress."

—The attendance on the trial of Robinson, the alleged murderer of Genera McConnell, at Jacksonville, Ills., was much larger yesterday than on Tuesday. Much interest is manifested and many strangers are in the city watching its developments. On ordering a new panel of jurors, Tuesday evening, it was deemed almost impossible to obtain a jury for the trial of the cause, but yesterday morning filled the jury full, four persons having been accepted, completing the necessary number. The legal talent employed in this cause, and the earnest attention they are giving it, show that every possible effort, both by the prosecution and defence, will be made to thoroughly sift the circumstances attending the matter. The state of feverish anxiety which has followed the commission of this terrible crime, still continues, and it is the evident determination of all parties that nothing should be left undone to clear up the horrible mystery. Most of the morning was consumed in arguing the right by the prosecution to challenge in selecting a jury in *ex post facto* criminal cases. The Court held the law passed by the last General Assembly, allowing the prosecution the right to challenge twenty jurors, was applicable to all cases, and that the prosecution in this cause was so entitled, to which ruling the defense objected. The entire afternoon was occupied in opening up the case to the jury.

—A largely attended public meeting of the New England Woman's Suffrage Association was held in Agricultural Hall, Boston, yesterday, Mrs. Julia Ward Howe presiding. Letters sympathizing with the movement were read from Anna Dickinson, Hon. George T. Hor and others. In the forenoon the meeting was addressed by Wendell Phillips, Ralph Waldo Emerson, Miss L. Peckham and others. A series of resolutions were offered by Lucy Stone Blackwell, one of which declares the 16th Constitutional amendment, prepared by Hon. George W. Julian, which prohibits political distinction on account of sex, should take precedence of any national question of mere political expediency, and is essential to the permanent reconstruction of the Union and of vital importance to the peace and prosperity of the Republic.

NEWS BY CABLE.

The Derby—Two Hundred and Fifty Thousand People Present—An Address of Welcome to American Minister Motley—The French Elections—Spanish Cortes Still Discussing the New Constitution—Arrests for Complicity in the Recent Assassination at Leghorn, Italy.

[By Telegraph to the Pittsburgh Gazette.]

GREAT BRITAIN.

LONDON, May 26.—The Derby was won by Pretender, who was recently winner of the two thousand guineas at Newmarket, who beat Pero Gomez by a short head, the Drummer being third, a length behind Gomez. Twenty-two horses ran and the remainder finished in the following order: Duke of Beaufort, Rupert, Rishworth, Alpenstock, Martyrdom, King, Cophetua, Thorwaldsen, Defender, Ethus, Devere, Perrydom, The Auegan, Border Knight, Lord Hawthorne, Nuchatel, Tenedo, Tasman, Ladas and Belladrum. Distance run one mile and a half; weight carried one hundred and twenty-two pounds; time two minutes and fifty-two seconds; value of stakes £6,900 sterling. Probably a quarter of a million of persons were on the ground. The Prince and Princess of Wales and Prince Teck were present. The Epsom town plate was won by Conrad. The Beniteck plate was won by Mysestom.

LIVERPOOL, May 26—*Midnight*.—The Chamber of Commerce held a meeting to-night and voted an address of welcome to Mr. Motley, the new American Minister. Mr. Patterson, in a speech in support of the vote, regretted the failure of the law officers to prevent the escape of the Alabama. The precedent was a bad one, and the maritime interests of England were sure to suffer from it. Moderate compensation could cancel this precedent; he would rejoice if it were granted by England. He was assured that the present Ministry would meet the claims of the United States without compromising the nation's honor.

SPAIN.

MADRID, May 26.—The Cortes is now debating the clauses in the Constitution which refer to Colonies.

Senor Castellar, alluding to Cuba, said if Spain had followed the example of England in her treatment of Canada, by granting the liberties which the Colonies claim for themselves, the outbreak in Cuba would have been prevented.

Marshal Serrano replied that Captain General Dulce granted the required liberties when he entered upon the government of Cuba, but party spirit blinded some of the inhabitants to the intentions of the home government. By demonstrations of physical force the rebellion had been suppressed, but by moral force was disappearing slowly. When the moral state of the Island is restored, the home government, acting in conjunction with Cuba, will suppress slavery and punish all persons engaged in the slave trade.

FRANCE.

PARIS, May 25.—The Orleanist, Legitimist and moderate Republican candidates have been beaten everywhere in the elections. The Radicals are victorious in Paris and Lyons. Mr. Thiers and Jules Favre are defeated. The new Corps Legislatif will be composed wholly of Government and Radical members. It meets on the 15th of June. Tranquility prevails throughout the country.

PARIS, May 26.—The accurate classification of the members of the new Corps Legislatif cannot be made, as all have not been decided, and returns in some cases are still incomplete. Of those candidates whose election is sure, forty-one were not members of the last Chamber. The opposition gain six new members, but lose three old ones. M. M. Drevele and Estange are elected.

ITALY.

FLORENCE, May 26.—Fourteen arrests have been made at Leghorn in connection with the attempted assassination of Col. Grenville. It has been ascertained that political animosity, growing out of the conduct of Col. Grenville at the siege of Rome in 1849, was the cause of the assault.

MARINE NEWS.

LONDONDERRY, May 26.—The steamer Prussian, from Quebec, arrived yesterday.

FINANCIAL AND COMMERCIAL.

LONDON, May 26.—There was scarcely anything done on 'Change and most of the quotations given below are merely nominal. Evening—Consols 93⅞. Five-Twenties 79¼. Stocks steady: Erie 19; Illinois 95½; Atlantic and Great Western 25¼. Tallow 42s 6d. Sugar 39s 9d.

ANTWERP, May 26.—Petroleum quiet at 48 francs.

HAVRE, May 26.—Cotton 139 francs on spot.

FRANKFORT, May 26.—Five-Twenties 85¾@85⅞.

LIVERPOOL, May 26.—Cotton quiet; middling uplands 11⅛@11¼d; Orleans 11⅜@11½d; sales 10,000 bales. Breadstuffs firm. California white Wheat 9s 7d; red western 8s 7d. Western Flour 21s 6d. Corn; mixed 27s 6d. Oats 3s 4d. Barley 5s. Peas 36s 6d. Pork 100s. Beef 90s. Lard 66s. Cheese 82s. Bacon 59s. Spirits Petroleum 6¾d; refined 1s 8¼d.

PARIS, May 26.—Bourse strong; Rentes 71 francs 50 centimes.

—A Keokuk, Iowa, dispatch states that a man named Simon Malone was found lying on the track of the Keokuk and St. Paul Railroad in that city, Tuesday morning, in an insensible condition, his clothes saturated with blood and bearing marks of great violence upon his person. There were severe wounds on the head, made by sharp stones, which were found covered with blood near the wounded man. The assasins, supposing that life was extinct, had placed the body on the railroad track to convey the impression that the man had been run over by a train. A saloon keeper, residing in the vicinity, has been arrested on suspicion.

BRIEF TELEGRAMS.

—Thomas C. Durant, Vice President, John J. Cisco, Treasurer, and Wm. H. Macy, one of the Directors, of the Union Pacific Railroad, have resigned. The former retains his interest in the Company, of which he is the largest stockholder.

—Capt. Shackleford and a colored sailor were badly wounded on Tuesday by the Sheriff of Princess George county, Md., the former having resisted the Sheriff in an attempt to arrest some criminals on board his vessel, near Fort Washington, and fired the first shot.

—The State Department is becoming uneasy at the continued silence of Gen. McMahon, American Minister to Paraguay. To the letter of recall, forwarded to him several months since, no answer has been received. Gen. John Cochrane is mentioned as his successor.

—At Richmond, Virginia, yesterday, a large Conservative meeting was held. Addresses were made by Hon. Thos. S. Flourney and others in favor of Mr. Walker, the Republican candidate for Governor. Mr. Walker was present and made a brief address. His appearance was hailed with cheers.

—A German named Adalbert Truckmeyer, of Ottawa, Illinois, shot himself Tuesday night. The ball entered his heart, killing him instantly. He was about twenty years of age, and getting out of work and money, determined to commit suicide. This is the third suicide in that city within three weeks.

—The Ladies' Union Aid Society of St. Louis have declined an invitation from the Grand Army of the Republic to participate in the decoration of the soldiers' graves on the 30th inst., on the ground that they deem it inconsistent as Christian women to take part in the ceremonies on the Sabbath day.

—Jas. Budlong, a merchant of Brooklyn, N. Y., has been committed to prison, in default of bail, to answer a charge of obtaining by false representations the endorsement of Clinton Gilbert, Vice President of Greenwich Savings Bank, to a promissory note for $3,500, which the latter was compelled to pay.

—The American Baptist Free Missions Society commenced its twenty-sixth anniversary meeting at Richmond, Va., yesterday morning. Rev. A. L. Post, of Pennsylvania, is President. Twenty-nine States and Canada are represented by one hundred and six delegates, including two ladies. A large majority of the delegates are colored.

—There was a slight run on the Atlantic National Bank of Brooklyn on Tuesday, upon the announcement that the accounts of the President, W. C. Rushmer, killed in the recent Long Island Railroad slaughter, showed a deficit of nearly $250,000. The Directors allayed all fears by pledging themselves for the business of the bank.

—Secretary Boutwell has in contemplation the appointment of Doctress Mary E. Walker to a position in Alaska. Leading members of the Women's Rights League say that it is important for the success of their cause that Doctress Walker should have an appointment as far away as possible from civilization, and they therefore approve of giving her a place in Alaska.

—It is reported in New York, by well-informed persons, that the Spanish Government will soon issue a decree requesting that all citizens of the realm or colonies residing in foreign countries, who may own property in Cuba, shall within a stated period register their names with the nearest Consul, and take the oath of allegiance to the mother country. A failure to comply with the order will render all such property liable to seizure.

—A fire occurred in Mobile, Ala., Tuesday night, by which the following were losers: Childers & Davis, grocery dealers; Foster & Gardner and F. Estallenweck & Co., commission merchants; Ober & Anderson, feed store, and Baker & Co., forwarding merchants. Colonel L. T. Woodruff, President of the Board of Trade, lost his life, and two men were seriously injured, by the falling of walls. Loss $40,000 to $50,000.

—The National Executive Committee of the Union League of America met at the St. Nicholas Hotel in New York, yesterday, Gov. Geary, of Pennsylvania, in the chair. A large number of delegates were present from different States. The principal subject discussed at the meeting was the impending elections at the South, and measures were adopted to aid the Union men in the election about to take place in Virginia.

—The Rhode Island House of Representatives passed, yesterday afternoon, nearly unanimously, a resolution that the General Assembly holds in high esteem the administrative ability of His Excellency, Governor Ambrose E. Burnside, retains unimpaired the confidence in his courage, patriotism and loyalty, and holds in grateful remembrance the self-sacrificing gallantry of the officers and soldiers of Rhode Island during the formidable rebellion.

—Large emigration from Canada is flowing into Kansas, and great numbers of the new comers are settling along the line of the Kansas Pacific Railroad. Gen. Wyndon, commander of Her Majesty's forces in British North America, in company with P. S. Stevenson, General Freight Agent of the Grand Trunk Railroad, and S. T. Webster, of Chicago, General Agent of the National Steamship Company of Liverpool, are purchasing lands at Manhattan, Kansas, of the National Land Company.

—The Third Illinois District Congressional Convention met at Freeport yesterday to nominate a successor to the Hon. E. B. Washburne. Nearly every county delegation was instructed to vote for its special candidate, and the balloting continued throughout the day, until, after making the two hundred and fifty-first ballot, at six o'clock the Convention adjourned to meet at half past seven. It was thought that a new candidate, in the person of Hon. John H. Adams, of Freeport, will be brought forward with a good chance of nomination.

—The New England Labor Reform League reassembled at Boston, yesterday, but the session was thinly attended and the proceedings without special interest. Addresses were made by Miss Cara A. Syme, Hon. Edward Avery, Stephen S. Foster and others. A telegraphic dispatch was received from Senator Sprague, dated Aiken, S. C., favoring the objects of the League and urging them to persevere, not to be deceived and to let their deliberations be bold and confident.

—The affairs of the Atlantic National Bank of Brooklyn are under examination by Bank Examiner Callender, and business was continued as usual. Mr. Callender already expresses the belief that the bank is entirely solvent and safe. The excitement has entirely subsided. The deficiency which exists depends on the ultimate value of the securities reserved by Mr. Rushmore for the loans made, which consist in part of bonds and stock of the Newark and Patterson Railroad, to be opened June 1st, and which has been leased to the Erie Railroad Company at $53,000 per annum, title deeds to real estate to the amount of $75,000, &c. It is probable the capital of the bank will be reduced one-half, say a quarter of a million instead of half a million. The idea of changing it to a State bank is abandoned.

Getting Used to It.

Three times in as many days has John McCall found himself within the sheltering portals of the Allegheny lock-up, and every time as a result of imbibing too freely. The first time John was fined ten dollars, which included pay for sundry extra misdemeanors, the second time he paid five dollars, and the third time he was released with a pocket-book lighter by five one dollar greenbacks than when he entered. The next entrance will probably be through the lock-up in the county jail for vanity's sake.

DECORATION DAY.

Meeting of the Executive Committee.

The Executive Committee appointed by the various Posts of the G. A. R., held a meeting at City Hall at four o'clock P. M. yesterday, to complete the arrangements for Decoration Day.

The meeting was called to order by Gen. A. L. Pearson, Chairman; Captain W. B. Cook officiating as Secretary.

Maj. E. A. Moontooth stated that a committee of ladies from the Third ward Public Schools had authorized him to report to the Committee that the children had raised a sufficient sum of money to purchase a flower pot for each scholar, and that they desired to have the flowers transplanted on the graves of soldiers buried in the Allegheny Cemetery, and they desired to know where they would send the flowers.

The report was received and the ladies directed to have the flowers sent to Masonic Hall on Friday morning.

On motion, the Chairman was directed to request the Mayor to issue his proclamation recommending that all places of business be closed on Saturday.

Captain W. B. Cook read the following communication:

PITTSBURGH, May 26, 1869.

Captain W. B. Cook, Secretary of Committee, Dear Sir: I have the honor to tender your Committee, free of charge, a sufficient number of flags to supply the orphan children who may participate in the memorial ceremonies on Saturday. If my offer is accepted, please inform me about what number will be required, and when and where I shall deliver them. Very respectfully,

JOHN W. PITTOCK.

The communication was received and the Secretary instructed to inform Mr. Pittock that his kind offer was accepted, and that it would require four hundred flags, which could be delivered at Masonic Hall, Friday morning.

It was resolved to furnish carriages for the use of the ladies Committee and the Judges and Mayors of the two cities.

On motion Mr. S. W. Reynolds, was appointed a Special Committee to wait on Mr. Verner, President of the Citizen's Passenger Railway, for the purpose of procuring transportation for seventy-five boys and thirty-five girls to and from the Soldiers' Home.

It was stated that Miss Martin, of the Twelfth ward, had reported that the scholars of those schools would turn out in a body, each provided with a boquet of flowers, and join in the procession. All other schools are requested to do likewise.

On motion of Capt. W. B. Cook, James S. Devlin was added to the Committee for designating soldiers' graves in Allegheny and St. Mary's Cemeteries.

On motion, the several church authorities were requested to have the church bells tolled in the city from ten to eleven o'clock on Saturday.

Capt. W. B. Cook reported that Mr. McClurg had agreed to give the use of the Academy of Music for holding the ceremonies, free of charge. The report was received and a vote of thanks returned to Mr. McClurg for his generous offer.

On motion, a vote of thanks was returned to the Market Committe, who had volunteered the use of City Hall to the Committee, where a dinner will be served to the soldiers' orphans on Saturday.

On motion of Maj. Kilgore, it was resolved to furnish three carriages for the use of reporters, one to go to each cemetery.

On motion, the Committee adjourned to meet at four o'clock this afternoon.

The Irrepressible Conflict.

Hugh Trainor is a white individual, Willis Dangerfield bears a dusky complexion. Yesterday afternoon, the twain crossed paths on West street, Third ward, Allegheny, and the irrepressible conflict, the war of the races, began. Bravely and well the combatants strove, until a couple of blue coats appeared on the field, and promptly ended the combat by escorting the pair to the lock-up. Mayor Drum disapproved of their hostile actions, and imposed a fine of five dollars upon each, which they paid to be set at liberty.

The Pittsburgh Gazette.

A PRAYER.

BY MATTHEW ARNOLD.

Thou, who dost well alone—
Thou, who dost know thine own—
Thou, to whom all are known,
From the cradle to the grave—
Save, O save!
From the world's temptations;
From tribulations,
From that fierce anguish
Wherein we languish;
From that torpor deep
Wherein we lie asleep;
Heavy as death, cold as the grave—
Save, O save!

When the soul, growing clearer,
Sees God no nearer;
When the soul, mounting higher,
To God comes no nigher;
But the arch fiend Pride
Mounts at her side,
Foiling her high emprize,
Sealing her eagle eyes;
And when she fain would soar,
Makes idols to adore;
Changing the pure emotion
Of her high devotion
To a skin deep sense
Of her own eloquence;
Strong to deceive, strong to enslave—
Save, O save!

From the ingrained fashion
Of this earthly nature,
That mars by creature
From grief, that is but passion;
From mirth, that is but feigning;
From tears, that bring no healing;
From wild and weak complaining;
Thine old strength revealing—
Save, O save!
From doubt, where all is double,
Where wise men are not strong;
Where comfort turns to trouble;
Where just men suffer wrong;
Where sorrow treads on joy;
Where sweet things soonest cloy;
Where faiths are built on dust;
Where love is half mistrust,
Hungry, and barren, and sharp as the sea—
O set us free!
O let the false dream fly,
Where our sick souls do lie
Tossing continually.
O where thy voice doth come
Let all doubts be dumb;
Let all words be mild;
All strifes reconciled;
All pains beguiled.
Light bring no blindness,
Love no unkindness;
Knowledge no ruin,
Fear no undoing,
From the cradle to the grave—
Save, O save!

—Mr. Bergh, President of the New York Cruelty to Animals Prevention Society, wants the custom of the Board of Health of that city, of offering rewards for the destruction of dogs, abolished, and also the suppression of the dog pound.

—They have introduced a new dodge at the Washington boarding-houses. They put half a dollar in the hash at breakfast, and the boarders eat hash then to the neglect of all other dishes, hoping to get the money. Hash has gone up 10 per cent. in the market in consequence.

—Paris dandies are beginning to wear blue and green in place of black for full dress. We have already chronicled the appearance of silk coats, and it will doubtless not be long until the gentlemen at evening parties present as gay an appearance as did their great grandfathers.

—A few weeks ago a married woman in Philadelphia attempted to commit suicide by jumping off a ferry boat into the Delaware. She was, much against her will, rescued, and, asserting that she did not want to live, has ever since persistently refused to take any food, and on Monday died of sheer starvation.

—Napoleon Bonaparte died at St. Helena, May 5th, 1821, but in those benighted days when telegraphic cables and Pacific railroads were not, this important news didn't reach the United States until the 15th of August; but our poor fathers were so ignorant that they thought that was rather fast time for news from St. Helena.

—At a late printer's festival the following toast was presented: "The Printer—The master of all trades; he beats the farmer with the Hoe, the carpenter with his rules and the mason with setting up tall columns; he surpasses the lawyer and the doctor in attending to his cases; and he beats the parson in the management of the devil.

—The Philadelphia *Ledger* says: The following vessels cleared from this port during the past week with petroleum: Bark Fion, for Rotterdam, with 88,773 gallons; bark Adelaide, for Elsinore, with 121,164 gallons; brig Faveur, for Cronstadt, with 67,888 gallons; brig Perseverance for St. John, with 1,000 gallons; brig Fides, for Trieste, with 84,095 gallons; bark Gyda, for Stettin, with 111,637 gallons; brig Giovanino, for Gibraltar, with 34,712 gallons, making a total of 509,269 gallons. Four ships, seven barks and six brigs are now loading.

Washington Items.

Secretary Boutwell to-day had a balance of ninety-one millions of gold, the property of the government, and twenty-three millions on deposit. Total gold on hand one hundred and fourteen millions. He has also thirteen millions of currency.

The receipts from internal revenue to-day were larger than they have been for several months, amounting to $1,600,000. The revenues will be immensely increased for the next month in consequence of the payment of the income tax, now due.

General D. E. Sickles on Saturday received his commission as minister to Spain. He has accepted the office, and is to enter upon its duties on the first of July next. He proposes to leave this country in about three weeks, so as to reach Madrid at that time.

All applications for additional bounty are now being rapidly arranged, and as fast as possible settled. The great press of business thrown upon this office by laws relating to bounties for service in the late war has been materially lessened, and things are now going on smoothly. Where heirs to deceased soldiers apply for bounty, the case, if the papers are correct, is now settled in a few days, where, in corresponding cases a few years ago the applicant has been kept waiting for months, or even years.

Where a soldier applies for his own bounty, the case, if properly presented, is disposed of in two or three weeks, a matter which, until lately, has required from six months to even three or four years' time. Where there is delay in a case now, the applicant may know that there is something wrong in the preparation and filing of papers and evidence, or that the evidence is not satisfactory. There are thousands of such cases on hand.

In a great many instances agents have applied for the additional bounty, enclosing the soldiers discharge, and afterwards another application has been received, accompanied by affidavits from the bona fide soldiers, stating that his discharge had been lost. There are also many cases bearing such evidence of fraud upon the Government, the soldier, or his heirs, that the auditor declines to pay them, and so they remain in the office from year to year. A great many complaints are received from claim agents who profess to have paid advances upon claims presented against the effect of the late law of Congress which requires that the agent's fee shall be deducted and sent to him, but no more, and that the balance shall be paid to the claimant.

The political campaign in Virginia is assuming a very warm and active shape. Both parties are confident. It is conceded that the Constitution will be ratified by a large majority, and that the separate clauses will be defeated. The Conservative party say that the re-opening of the registration will add thousands of white votes to the lists; that they will get many negro votes as well as white votes; and that the negro vote has been largely decreased by emigration of that class, both South and North. They also claim that the Conservative party represents the true business and commercial policy of Virginia, and base their hopes of success on these reasons. The Wells party, or regular Republicans, as they call themselves, claim that Walker will get few or no negro votes; that the label "Conservative Republican" will not deceive them; that Wells will get a large white vote, and that a very large portion of the extreme rabid secession element, who refuse to countenance suffrage under any circumstances, will not vote at all, but permit the election to go by default. They anticipate the success of Wells by ten to fifteen thousand majority.

Matrimonial.

We have been permitted to examine the *trousseau*, part of which was imported from Paris, of a bellb of Madison avenue, who is shortly to be led to the hymeneal altar. All the articles and dress material sent from Paris were done up in packages elegantly embroidered and edged with Valenciennes lace, each package being inclosed in a substantial case of straw. A package of handkerchiefs like cobwebs in quality, each bearing the monogram of the young bride in new and unique designs, won our admiration and we were struck with several sets of laces of exquisite patterns.

The bride's dress, made by the court dressmaker, is of white satin of rare magnificence, with an entire overdress of point lace, which is looped up at the sides with large satin rosettes and orange blossoms. The bridal veil is also of point lace made to order in Brussels, the pattern corresponding with the lace overdress.

The expectant bridegroom has given his *fiancee* an elegant set of seed pearls, purchased at the Paris Exposition, which are to be worn on her wedding day.

We saw among many beautiful silk dresses one of pink—the new shade—made with a long train, and trimmed with a deep point lace flounce, above which is a row of pink and white marabout feathers as a heading. The short skirt is turned over at the back, and fastened with a small bunch of pink and white feathers. Boots to correspond, of pink silk with high pink French heels, were shown us, which we admired as a matter of course.

Another dress of blue corded silk is trimmed with two point applique flounces, with headings of peacock's feathers, beautifully arranged. The dress is made with a corsage cut quite *decollette*, with bertha of applique and tufts of peacock's feathers. As with all the other toilettes, boots, gloves, fans, &c., correspond in shade and pattern. A reception dress of gray satin is beautifully trimmed with the new shade of green in small puffs arranged around the bottom of the skirt, with a bow of gray and green between each puff.

All the dresses we have described are of the richest and most expensive quality and material, and made in accordance with the advanced Paris fashions. Among the items were twelve pairs of shoes, No. 2; five dozen assorted gloves, four dozen handkerchiefs, six pairs slippers, six round hats, four bonnets, four parasols, two lace shawls, three lace parasols, two India shawls, twelve dozen pairs of hose, twenty-eight evening, dinner and street dresses, five cloaks and sacks, and cartloads of other articles of wearing apparel.

The bridesmaids' dresses—six in number—were sent over at the same time, and have been presented to the misses who are to officiate on the occasion. They are of white corded silk, with long trains, and trimmed with a heavy ruching of white satin around the edge of the skirt. The overdresses are of fine white tulle elegantly trimmed with Valenciennes inserting, edged with white lace, and looped up on each side by a vine of tea roses and buds.

The father of the bride has already given his daughter his present, which is a fine brown stone house on one of the fashionable thoroughfares, elegantly furnished throughout. The entire house has been neatly decorated, each room being frescoed in new designs and colors—the furniture corresponding. The walls are adorned with elegant and rare oil paintings, some of them by old masters, sent from abroad at great expense. Beautiful pieces of statuary fill all the alcoves and niches, and rare ornaments are distributed about the room in profusion.

Among the drawing-room ornaments we saw a small table of the finest ivory, inlaid with gilt, the feet made to represent bird's claws, with small birds fastened at intervals up the legs.

Nearly all the bedrooms are hung with silk, the beds being placed in alcoves and entirely hidden from view. Long mirrors from ceiling to floor are in every room, and nothing can be desired even by the most fastidious. The attic has been fitted up as a croquet ground, the walls and woodwork padded with green reps, and the floor covered with the same. A billiard table stands in one corner, so that when one game becomes tiresome or monotonous, another can be called into requisition. In the cellar, which been cemented and paved, a long alley has been built for bowling, with every convenience of gas, fires, &c., for all weathers.

The taxes on the house and furniture have all been paid for one year in advance—so it is said—that the newly married couple shall have neither care nor expense. Attached to the house is an extensive conservatory, filled with the choicest and most beautiful exotics.

The wedding is to be celebrated in June, in a fashionable church near Gramercy Park.—*N. Y. Sun, May 22.*

M. Personne, a French chemist, announces that the essence of turpentine is an antidote for poisoning by phosphorus. This will be agreeable news to persons engaged in the manufacture of matches, who are subject to many diseases caused by the inhalation of phosphoric fumes, which frequently result in caries of the jaw bone. In support of this theory he publishes the following results of his experiments: To five dogs he administered doses of phosphorus, varying from one to three grammes; to five others the same doses, followed in the course of an hour by ten grammes of essence of turpentine; and finally to five more the same doses of poison, immediately succeeded by the antidote. The first five all died; of the second series all recovered but one; while the five last appeared not to suffer the slightest inconvenience.

Fifty thousand persons die of drunkenness in England annually, and twelve thousand of them are women. By the way, in the United States thirty-five thousand persons die annually of drunkenness. The population of England is abuut 22,000,000, while that of the United States is about 35,000,000. In France, with a population of about 36,000,000, the annual number of deaths from drunkenness is fifteen hundred—a pretty strong evidence in favor of cheap wines as a preventive of intoxication.

A book purporting to the memoirs of the Dauphin, Louis XVII., by his sons William and Augustus Meves, has recently appeared in London. The person assuming to be the Dauphin was an English composer and teacher of music of more than ordinary merit, who throughout a tolerably long life labored under the delusion, in which his progeny seem to share, that he was the legitimate heir to the throne of France.

DR. WHITTIER
CONTINUES TO TREAT ALL
Private diseases. Syphilis in all its forms, Gonorrhea, Gleet, Stricture, Orchitis, and all urinary diseases, and the effects of mercury are completely eradicated: Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.

A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.

It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.

The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicine can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays 10 A. M. to 2 P. M. Office, No. 2 WYLIE STREET, (near Court House,) Pittsburgh, Pa.

CATTLE.

There was a fair business during Tuursday and Friday of last week, the sales in the aggregate on those days having been large; since then, however, the market has been tame and dragging, buyers and sellers having been unable to get together. The great propertion of the arrivals thus far this week have been from Chicago, though they were several droves from Cincinnati and St. Louis. In regard to quality there is not much difference compared with last week, the bulk of the stock consisting of good to prime shipping steers. The advices from New York were not as favorable as on Monday, while telegrams from Chicago report a light run and an advance of from a quarter to three-eights, and this explains why buyers and sellers were unable to get together. Shippers generally refused to buy at the asking prices, contending that they could not do so without running a good chance of losing money, while sellers, in view of the advices from the west, were unwilling to make concessions.

As will be seen by reference to the report of sales, there were one or two droves of extra sold at 8, but shippers, generally, alleged that 7¾ was all they could afford to pay for the very best cattle, and good to medium shipping steers may be quoted at 7@7½.

SHEEP.

The Sheep market closed strong last Saturday with the pens cleared and that, too, at an advance of from a quarter to half a cent per pound. This week, however, under the influence of large arrivals, the market has broken down again, and the advance established last Friday and Saturday, has been more than lost. We now quote the very best grades at 5¼@6, which on Saturday last sold at 6¼@6½, and it looks at this writing as if the bottom had not yet been touched. Good to medium grades 4½@5. The daily sales were as follows:

Wednesday,.....	3770
Thursday,.....	3377
Friday,.....	2290
Saturday,.....	570
Monday,.....	784
Tuesday,.....	3561

HOGS.

The Hog market, also, has, to use a common expression among drovers, received a "black eye," prices having declined from three quarters to a cent per pound, since the date of our last report, and even at the decline, the market is dull and weak with a supply considerably in excess of the demand. We now quote New York Hogs, which last week brought 9¼@9¾, at 8½@8¾, and Philadelphia Hogs, which last week brought 10½@10¾, at 9¾@10. The daily sales were as follows:

Wednesday,.....	2105
Thursday,.....	1254
Friday,.....	1683
Saturday,.....	335
Monday,.....	1260
Tuesday,.....	1586

RIVER NEWS.

The river continues to recede steadily with five feet four inches in the channel by the Monongahela marks last evening. Yesterday was the hottest day of the season, the mercury at noon being up to 89.

The Gallatin from Parkersburg and New State from Wheeling, are the only arrivals we have to report. The latter departed againf while the former has been laid up.

The Wauanita departed for St. Louis with a good trip, having about all the freight she could take on the water.

The Grey Eagle departed for Parkersburg, the repairs to her doctor having been completed.

The Glendale, Capt. Hare, is now in turn for St. Louis and will be the first boat out. She is one of the most reliable and commodious boats in the trade.

The Kate Putnam, Capt. Geo. W. Reed, is loading for Cincinnati and Louisville, and passengers and shippers should bear this in mind.

The Matamoras No. 2, a bran new boat, is announced for New Orleans forthwith.

The Armadillo, Capt. McCarty. is up for St. Louis and St. Paul.

—The Belle Vernon and Wild Duck were at Evansville on Monday and the Camelia left Nashville the same day for Pittsburgh.

—The Maggie Hays, Pittsburgh to St. Louis, left Cincinnati on Monday.

—Com. W. J. Kountz has contracted for a new mountain boat, an exact duplicate of the Carrie V. Kountz, with the exception that she will have an additional boiler.

—Capt. H. G. M'Comas has contracted here for a new boat for the Red River trade.

—Most of the boat yards up the Monongahela are engaged in building barges for the Big Muddy Coal Company, of St. Louis.

—The Deer Lodge reached Fort Benton on the 16th, and the Only Chance, Alabama, Importer, Fannie Barker, Peter Balen, Aberve, Cora, Big Horn, Ida Rees and Huntsville, have probably arrived by this time.

—The steamers sold by the Atlantic & Mississippi Steamship Company are advertised for sale by Capt. Jos. Brown. The following are the prices understood to be set upon them: Pauline Carroll, $30,000; Olive Branch, $25,000; W. R. Arthur, $45,000; Continental, $16,000; Lady Gay, $27,000.

—The Belle Lee has abandoned St. Louis and gone back to Louisville, where she will paint and repair and be fitted up for the New Orleans and Vicksburg trade.

—There is a general feeling of satisfaction among all interested in the mountain fleet at the recently reported rise in the Upper Missouri River. It is believed now that all boats en route to Fort Benton will reach their destination without delay.

—Glover, an important witness in the Donaldson murder case, has been arrested at Edgfield, S. C., where he had a a small grocery store.

—A St. Louis special to the Cincinnati *Commercial*, says: Alfred Sanford has been relieved from the office of Supervising Steamboat Inspector, and Daniel G. Taylor, the former occupant, appointed in his stead. Sanford had only held the office ten days, and it is rumored that Grant relieved him at the earnest request of leading Radicals here, who protested against the appointment of a man formerly known as a strong rebel sympathizer. Sanford was an old neighbor of Grant's when the latter lived near St. Louis, and voted for him last fall.

—The Dubuque *Herald*, of the 21st, says that the Glasgow was run into Galena last Wednesday, where she received the largest freight of any packet that visited that city this season. Her agent here Jack Haskell, performed a cute piece of strategy to secure her trip. He had 1,000 sacks engaged here, but knowthat the Milwaukee was to run into Fevre river for a load, headed her off by hurrying the Glasgow to Galena and leaving what freight he had contracted. The Milwaukee is the longest boat on the river, and was nearly three hours in trying to turn round in that narrow stream. All this time the Glasgow was receiving a short distance off, and secured the lion's share of shipments.

—The Dubuque *Times* says that a steamboat having twelve feet beam, seventy-eight feet keel, and employing over 6,000 feet of lumber in its construction, is building below Bridgeport to run on the Maquoketa. The boat has already been launched and found to draw only six inches of water.

—We are indebted to Mr. T. J. Darragh, clerk of the Bellevernon, for the following report of her Pittsburgh freight: Brownsville Packet Co, 10 bbls washed clay; Clarke & Co, 1,800 bbls flour, 300 sks bran, 525 do shipstuff; Thos Coffin, 123 bbls crude clay; Hippley & Beckert, 100 sks bran, 100 do shipstuff, 102 do shorts, 10 bbls flour; G A Kelly, 10 sks hemp seed; W M'Culley & Co, 3 bbls glass; Park Bros & Co, 28 bbls scrap steel; Penna Salt Manufacturing Co, 12 cases lye, 45 empty carboys; Schomaker & Langenheim, 192 sks shipstuff; Stewart & Nichol, 110 sks bran; Singer, Nimick & Co, 16 springs.

The Artificial Limb Manufacturing CO. CHARTERED BY THE STATE OF PENNA.

All Shareholders are Men Wearing the Limbs Made by the Company.

To those requiring a limb we would say that our own experience has induced us to establish a factory here that would make a comfortable and durable limb for a *reasonable price*. After trying a number of solid socket and padded socket legs, we have each found more comfort and usefulness in this "ADJUSTABLE LACEING SOCKET" than in any other made in the country. One of our number, a skilled mechanic, has charge of the shop. We have bought the right to use two of the best patents, and by our experience we hope to improve in every way that will add to the comfort, durability or appearance of the limbs we make. We have put the price of our new legs at $80. Persons from a distance are only detained in the city while the measure and a cast of the injured limb is taken.

The saving to purchasers, as compared with Eastern prices, is from $20 to $95 in the price of legs; at least $26 railroad fare, hotel bills and other traveling expenses, and then we are satisfied that our limb *will give better satisfaction than any one made in New York or Philadelphia.* If we can get orders, we can maintain our factory at the above price, and we therefore ask an examination before going elsewhere.

We make to order and keep on hand a supply of stockings, braces, and appliances for injured or deformed limbs, also, crutches, trusses, shoulder braces, &c. For further information, circular, containing many testimonial letters from those who have worn our artificial limbs, address ARTIFICIAL LIMB MANUFACTURING CO., No. 503 PENN STREET, between Thirteenth and Fourteenth, Pittsburgh, Pa. ap13:b35 TTHT

THURSDAY, MAY 27, 1869.

REPUBLICAN COUNTY CONVENTION.

The Republican voters of Allegheny county are requested to meet at the usual places for holding elections in the several wards, boroughs and townships, on

SATURDAY, MAY 29th, 1869,

And elect delegates from each election district to each of the three following Conventions, viz:

Two delegates from each to the COUNTY CONVENTION, for the purpose of nominating candidates for Sheriff, Recorder, Register, Treasurer, Clerk of the Court of Quarter Sessions, Clerk of the Orphans' Court and Commissioner.

Two other delegates from each to the LEGISLATIVE CONVENTION, for the purpose of nominating one candidate for State Senator, for one year, to fill the unexpired term of Russell Errett, resigned, and six candidates for Assembly. And

Two other delegates from each to the JUDICIAL CONVENTION, to nominate one candidate for Judge of the District Court, and one candidate for Judge of the Court of Common Pleas, and elect eight delegates to represent the county in the Republican State Convention.

These Conventions will severally meet, in the city of Pittsburgh, on

TUESDAY, JUNE 1, 1869,

At 11 o'clock A. M., at the following places:

The COUNTY CONVENTION will meet at the COURT HOUSE.

The LEGISLATIVE CONVENTION will meet at CITY HALL, on Market street. And

The JUDICIAL CONVENTION will meet in MASONIC HALL, on Fifth avenue, between Wood and Smithfield streets.

The election of delegates will be held between the hours of 4 and 7 o'clock P. M., and will be held, as far as practicable, by the Republican members of the election boards in the several districts; and in those districts where the Republican election officers are a minority of the regular election boards, the said officers are authorized to appoint enough additional officers to complete the board.

The voting in the cities and boroughs shall, in all cases, be by ballot, and in the townships by marking.

The President of each Convention will appoint a Committee of three, the three Committees thus appointed to meet together, as soon as practicable after the adjournment of the Conventions, and appoint a County Committee for the ensuing year.

By order of the County Committee.

RUSSELL ERRETT, Chairman.

JOHN H. STEWART, Secretary.

THE CARD of Hon. GEO. WILSON will attract the attention of our readers, as a square and public denial of the slanders uttered by a city journal.

CHICAGO has been favored by a railroad reduction of ten cents a bushel on the carriage of wheat from any point on the Mississippi to the city.

A REFRESHING RAIN fell last night. Providence smiles on our people and promises the most luxuriant cereal and fruit crops we have ever known.

LUZERNE county instructs her Republican delegates to support Hon. W. W. KETCHUM for Governor. Northampton speaks out for General SELFRIDGE.

IT IS announced that Mr. JOSEPH MEDILL, the able and accomplished editor of the Chicago *Tribune*, is negotiating for the purchase of the *Republican*. There are few western journalists who occupy as high position in the estimation of the fraternity as Mr. M., and we do not see how the *Tribune* can afford to lose his very valuable services.

TIME makes all things even. General PHIL SHERIDAN and JOHN C. BRECKINRIDGE occupied the judges stand at a horse race in Cincinnati, on Tuesday, and amicably conversed in horse talk for an hour and more. Stone river was forgotten and the warriors of different causes forgot the storm of battle in the dust of the arena.

IF, as we have all expected, our neighbor is already beginning to back down from its threatened bolt, it will be to the unmixed grief of the Republican party. Let the *Commercial* stay out: if it *will* insist upon coming back, it must take its old seat very far in the rear, purge the Copperhead element from its editorial columns, and show works meet for repentance.

IN A very hopeful article printed in HUNT'S *Merchant's Magazine*, the writer concludes that our national banks are in strong condition, and that as money is rapidly pouring into New York and accumulating there, there is much promise for ease in the money market, and for such movements in the financial mechanism of the country as are usually productive of actual speculation.

THE Attorney General of Ohio is clearly of the opinion that citizens of that State should not be idemnified for losses sustained from the Morgan raid. The State officers acting under his counsel, refuse to acknowledge the validity of a bill passed by the Legislature recognizing the right of the injured to receive damages from the State.

AN Anti-Ritualist Convention of the Protestant Episcopal Church has been called to be held at Chicago on the 16th of June next. A large number of clergymen have signed a vigorous protest against the new teachings of Bishop WHITEHOUSE, Drs. DIX, DEKOVEN and others as being "machinations and devices that are employed for unprotestantizing this Protestant Episcopal Church, corrupting her doctrine, debasing her worship, and overturning her long-established rites, ceremonies and usages." The call for the proposed Convention is signed by a large number of the clergy, of that denomination, in all quarters of the country, and is addressed to the Evangelical Clergy and laity of the church throughout the United States.

THE IMPRESSION, at New York, seems to be that the Presbyterian union may be deferred for still another year. A large majority of the New School judicatories prefer that the basis should be amended in the particulars specified by our article of the 24th, while the other branch inclines to prefer the basis unaltered, by a majority equally decisive. It is the general belief that this difference will be harmonised within the next twelve months, when, perhaps, it may also include most of the other Presbyterian bodies. A basis upon which the latter can agree is already under consideration, and is to be perfected by a joint committee which meets in this city, in August next. When the fusion, more or less complete, shall be consummated, says a dispatch, "it is intended to celebrate the event with a day of prayer in all the Presbyterian churches throughout the Union."

IN the world, at the close of the year 1868, there were one hundred and nine thousand one hundred and seventy-seven miles of railway track, which cost in the aggregate $10,829,751,982. They traverse an area of nineteen million four hundred and forty-one thousand and thirteen square miles, populated by five hundred and eighty-four million four hundred and sixty-three thousand nine hundred and thirty-seven souls. The average of inhabitants to each mile of railway is 5,353:36. In North America there are but one thousand one hundred inhabitants to each mile of railroad, which is the smallest ratio in the world. Asia presents forty-nine thousand four hundred, Europe five thousand and sixteen, South America fourteen thousand seven hundred and seventy-five, and Africa ten thousand six hundred and thirty-nine inhabitants to each mile of track.

MANY of the soundest Republicans of Missouri favor the removal of the restrictions which the present Constitution imposes upon men who, during the war, favored the cause of the rebellion. At the same time, they claim the enfranchisement of colored men, a thing which the ratification of the XVth Article of the Federal Constitution will effect, at any rate.

The immense immigration from the middle and eastern States into Missouri, a large majority of whom are Republicans, is so strengthening the party of the Union, in that State, that they can afford to be magnanimous to those who, eight years ago, would, if they could, have dragged Missouri out of the Union. While some of those are as bitterly disloyal at heart as ever, others are entirely satisfied with the result of the struggle, and honestly and cheerfully accept the situation.

UNIVERSAL KNOWLEDGE is a human impossibility, but the nearest approach to its possession is made by that man who owns and uses a good Encyclopedia. How many men have gained wide spread reputations for erudition or scholarship, by a judicious use of their small stores of learning eked out by the studious perusal of universal dictionaries! Such a reputation is but a fraud, and therefore to be deplored, as the knowledge which supports it is necessarily superficial. Nevertheless, to come back to our first assertion, although it is not possible for a man to know everything, it is constantly necessary to know something about everything, to do which either unlimited time or a good Encyclopedia is necessary; and this desideratum seems to be found in the work before us. *Zell's Popular Encyclopedia and Universal Dictionary* is now being issued in weekly and monthly parts; of these latter, four are on our table, bringing the work down to Atha; with this much, as a specimen, on which to form an opinion, we judge the book to a good one, too wide in its scope to be without omissions, but the same can be said of every work of similar character; terse in its definitions and descriptions, but giving the leading points and most necessary information concerning the subjects of which it treats, and in every sense apparently designed to be a *popular* dictionary. The illustrations are numerous, and add distinctness to the descriptions in the letter press; the price is fifty cents a month or twenty-five dollars for the whole work, which will be comprised in two large quarto volumes. Most Encyclopedias have, to the ordinary man, two great objections, the money they cost and the space they occupy; this one has greatly the advantage of all rivals in these respects, and on these grounds alone; if it had no other merits, its publishers should be justified in anticipating a large sale for it.

AND SO THE whirligig of time makes all things even! Since the Pittsburgh *Commercial* has come under the editorial control of a well known Democrat, one of the extreme Copperhead faction of that party, although he pretends just now to write under the Republican flag, another Democratic journal is enabled to retire from the field. The Pittsburgh *Republic* changes proprietors, abandons party politics, and is hereafter to be printed as a strictly independent penny paper, under the charge of Messrs. CASE, MURPHY and HEAZLETON. These young gentlemen have experience and capacity for the work which they have undertaken. Of Mr. CASE, who was lately city editor of the *Dispatch*, we know that he is an active and open Republican in politics, but that the *Republic*, under his editorial management, will carefully maintain a position of honest independence.

The Democracy do not profit by this exchange of newspapers. They lose a good friend and gain a very poor one. The *Commercial* is zealous enough, but will do that party no real good by its fraudulent abuse of the Republican flag. The trick is so palpable that its sheer impudence disgusts both parties, doing no good and no hurt to either. But the *Republic*, under its late management, was really an effective Democratic journal, frankly advertising itself as the only daily organ of that party in this region of the State. Previously the editor also of the *Commercial*, Col. SAWYER, who now retires from the *Republic*, very justly in his card reminds the public that he gave that tone and direction to the policy of the *Commercial*, which have fructified in its present Democratic preferences. The *Commercial* retains, and displays to-day, the powerful impress of his Democratic inclinations, but we are really glad to express our belief that the *Republic*, under its new management, will be freed altogether from certain influences which do not accord with the political ideas of a vast majority of our people. Perhaps Col. SAWYER may return to his first love, the *Commercial*, and make it, what he certainly would, a manly and open foe to Republicanism, instead of a filibustering and hostile privateer, depredating upon Republicanism under the cowardly cover of the prostituted Republican flag. Decidedly, the Democracy of Allegheny are losers by the substitution of the *Commercial* for the *Republic*, and they should press our suggestion upon the retiring editor of the latter. He would at once make the *Commercial* a respectable Democratic journal,—the only thing it could ever be, but which it cannot be without a larger infusion of candor and principle. This idea deserves their consideration just now.

THE INDIANA CASE.

We learn, from Indianapolis, that Senator MORTON has prepared a very powerful argument, showing conclusively that his other powerful argument, delivered before the Senate, near the close of the late session,—in support of his bill to prescribe the modes of Legislative action upon amendments to the Federal Constitution,—was altogether unnecesssry. The Senator now relies upon a precedent found in the action of the Senate upon the BRIGHT and FITCH case—a precedent so bad that it will not stand examination, and in which Governor MORTON himself had never a particle of confidence. To sustain that precedent now, not only he, but the entire Republican press and party, as well of the country at large as of Indiana itself, must deliberately eat their own words. Nor can we, with any good face, accept the Senatorial decision then, as in any degree justifying a similar disregard, now, both of the facts, of the provisions of the State Constitution, and of the soundest principles of political jurisprudence. This is substantially conceded, in the general consent with which the supporters of the action of Indiana, upon the XVth Article, have all fallen back upon that precedent for their main reliance. For evident reasons, we regard the present position of Senator MORTON as not creditable to his repute for political sagacity, as well as for an elevated statesmanship.

THE CONGRESSIONAL RATES.

In 1850, Congress adopted as a fixed principle, the restriction of the membership of the House of Representatives to a fixed number, correspondence with which should require an enlargement of the ratio at each recurring census, with the advance of our population. This restriction was accepted ten years later, in the adjustment of the representation upon the Census of 1860, and is likely to be again maintained in the re-distribution soon to be made. We note, however, some objections to this, particularly from Western journals, which argue that this restriction works an injustice to the rapidly growing States in that part of the Republic. We fail to see the force of their objections. There must be some limit to the numbers of a Legislative body, to secure the proper despatch of the public business, and the country is heartily agreed that the present House is quite as large as may be compatible with the convenience and efficiency of legislation. Under any ratio, the rapidly growing districts of the West, as compared with the stationary populations of the Eastern States, must be always at some disadvantage during the better part of the decennial period. This is unavoidable by any enlargement of the membership whatever. Beyond that, the Western States should be content with the gradual but certain transfer of national power by which the westward progress of our population is decennially marked. Whatever the ratio, with each recurring period, neither will Massachusetts secure more, or Iowa be put off with less, than that exact number of representation to which their ascertained populations shall, at each period, actually entitle them.

THE NEW PARAGUAYAN MISSION.

Mr. WASHBURNE, our late Minister to Paraguay, may congratulate himself upon his final escape from that country. His successor, Gen. MCMAHON, has not been heard from for months, and the Administration are seriously apprehensive that he is held in durance by the Dictator. It is now proposed to send Gen. JOHN COCHRANE upon a special mission to see what has become of our missing Minister. No selection has yet been made of a suitable Envoy to send, a few months later, to see what shall have become of General COCHRANE. Seriously, we object to this disposal of so distinguished a soldier and citizen as General C. He cannot be spared, in that way, by either his family, his friends or his country. We venture to suggest the names of other gentlemen, either one of whom would be honored by the appointment, and whom their country would cheerfully devote to the delicate and responsible duties involved in this far-off and perhaps endless quest of a lost Plenipotentiary. For one, we would name Hon. J. S. CARLISLE, of West Virginia; for another, that Gen. RUSSELL, "of Allegheny county," who not long since was prominently mentioned at the Federal Capital. We might also name Gen. J. W. WEBB, late of Brazil, Mr. SANFORD, recently of the Belgium Mission, or even Mr. HARVEY, who comes home from Portugal to resume his friendly correspondence with the surviving Southern rebels. We can better spare any of these gentlemen; indeed, all of them together might form a joint and most effectively imposing Commission of Enquiry which could not fail to clear up the mystery at present obscuring the precise situation of Gen. MCMAHON. The Dictator of Paraguay must be more than man, to be able to resist the persuasions of CARLISLE or RUSSELL, especially if backed by the diplomacy of WEBB, the boundless charity of HARVEY toward all enemies of either himself or this country, or the pretty Brussels pattern of knee-breeches which Mr. SANFORD could proffer for his distinguished consideration. But should the Dictator prove obdurate and kidnap the entire party of experienced diplomatists, their country would endeavor so simulate that spirit of Heavenly resignation, with which the late A. WARD signalized his own dedication of the last drop of blood of his wife's relations to the service of the Republic.

CARD.

To the Republican Voters of Allegheny County:

A series of editorials have appeared in the *Commercial* from time to time, purposely calculated to injure me in the estimation of my fellow citizens, and thus prevent my nomination for State Senator.

In the issue of this morning, among other things, the editor says: "Mr. Wilson got the appropriation bill where it would fail, unless the dead-heads were given their plunder; he carried his point. The dead-heads manifested their appreciation of his services, &c., by presenting him with a silver pitcher."

Now the facts are, that as Chairman of the Ways and Means Committee, I reported the bill without provision for the pay of the extra men; but the House, by a very large majority, amended the bill so that all could be paid. No sensible man will say that I am responsible for the action of the House. The "dead-heads" never presented me with a silver pitcher or anything else, nor did they look on me as their friend. They made presents to members of the committee, but none to me. I had placed them under no obligation. My fellow members in the House, in accordance with a long established custom, without distinction of party, presented me, as Chairman of the Committee of Ways and Means, with a silver pitcher.

The extra men were put on not by me or at my instance, but was determined by a caucus of the Republican members of the House, and the action of the meeting was affirmed by two subsequent caucuses, and I did not support the measure until it had been approved, as aforesaid.

Although these facts have been brought to the notice of the editor of the *Commercial* he still continues to misrepresent me, and publish what he knows to be false. I now unequivocally declare that I never received a present or any valuable from an employe of the last House, or any other House, to the value of one farthing.

I never voted for any corrupt measure before the last House, or any other House, of which I was a member.

GEORGE WILSON.

A False Friend.

When the Pittsburgh *Commercial* began last winter to manifest what seemed to be a virtuous indignation at the various acts of extravagance that our Legislature was guilty of, we fully approved of the position it took, and believed that it was working for the purification of the party. Its more recent course, however, has about satisfied us that we were mistaken. We are most compelled to believe that its attack on the Legislature was influenced by a desire to destroy rather than to purge the party whose livery it assumes. It is one thing to criticise certain members and certain acts of a party with a view to reform, and a very different thing to assume that an entire party organization is rotten and corrupt, and to call upon the people to repudiate it. The first is the proper function of an independent Republican paper, and the *Dispatch* has endeavored to perform it; the second is the function either of an open and above-board opposition newspaper, or the convenient cloak of a paper that uses its assumed Republicanism to stab that party in the back. The *Post* is the open foe; the *Commercial*, we are sorry to say, has put itself in the more insidious and more formidable category. Its editorials of late are merely sweeping diatribes against the Republican party in general. Just before the Conventions the people are given to understand, by a professedly Republican journal, that the party organization, from top to bottom, is one festering mass of corruption; they are told that they must place confidence in none of those whom they have been accustomed to look to as leaders—in no prominent man in the party; they are virtually informed that "corruptionists" have determined all the nominations in advance, that they are sold out and must not expect any fairness in the Conventions. And while a so-called Republican journal is thus villifying the party that nourishes it, and virtually inviting the people to desert it, the outspoken Democratic journals laugh in their sleeves and rejoice that their work is thus so well done to their hands by their new found ally. Undoubtedly they are now keeping files of the *Commercial* on hand, and after the Conventions are over all they will have to do to carry on the campaign will be to publish the *Commercial's* abusive articles assailing its own party.

Admitting, for the sake of argument—or of charity—that our big neighbor is not an enemy in disguise, as we fear, but only a sincere blunderer, and that it intends to support the nominees of the Conventions, what confidence does that journal expect the people to repose in *its* support of those nominees? It is vigorously putting itself on record as opposed to the whole of the existing Republican organization, and to nearly all the prominent Republicans of the county and State. If, then, its pet schemes and pet candidates are not nominated by the peeples as they are not likely to be, what will its hollow advocacy of those whom it has indiscriminately denounced, be worth? It will actually injure them more than its present opposition to them does. We ask of the *Commercial* that it will do one of the two things; either drop its mask and turn Democrat, and thus quit a party it denounces as hopelessly corrupt, or else abstain from its wholesale and *untruthful* charges of corruption against an organization which, though not immaculate, though extravagant, though not entirely free from corruption, it is yet a lible to denounce, In the style the *Commercial* has been indulging in, an organization which with all its faults, is yet the purest political body in the country, and upon whose existence and success depend the best hopes of all friends of liberty, reform and progress.—*Pittsburgh Dispatch.*

Wyandotte Cave, Indiana.

Says Prof. Owen, in a recent article on the Geology of Indiana: "In Crawford county the chief attraction is Wyandotte cave. Some years since I had the pleasure of exploring the Mammoth Cave of Kentucky, and, without desiring for a moment to detract from that justly celebrated and admired subterranean wonder, I can truly state that the Wyandotte cave is almost, if not quite equally worthy of a visit from the admirers of fine natural scenery. To do justice in description to the splendid long masses of stalacities, uniting, sometimes, with the stalamities below, which burst upon the view, perhaps after drawing our bodies through an aperature too small for overgrown travellers, or after safely passing the 'Dead Fall,' whose disturbance and displacement might forever cut off all return to light and life, furnishing a sepulchral catacomb infinitely greater in the extent of its ramifications than the wonderful and massive structures of art, the vaunted mausoleum pyramids of Egyptian despots. To describe fully the brilliance reflected, even by torchlight, from fluted columns of satin spars, forming the 'Pillar of the Constitution,' and similar scenes, would require a power of language which would, at best, feebly show forth the reality.

"To place on canvass the full grandeur of 'Monument Mountain,' enshrining on its summit a semblance of 'Lot's Wife,' the whole vaulted by the crumbling of magnesium limestone into an arch two hundred and forty-five feet from the proper floor of the cave, and studded on its oolitic summit with calcareous icicles, which seem to form tho gothic architectural pendants of this 'Wallace's Grand Dome,' to paint all this might furnish a subject for a Rembrandt.

"Seibert's cave, which is a short ways off from Wyandotte cave, is said to be also very beautiful, though as yet it is not much explored.

"The length of Wyandotte cave is said in all to be about nineteen miles."

AT MICHIGAN, Iowa, last week, Mitchell Katsky, aged fifteen, was killed in his father's grain ware-house. He was sweeping the upper floor while his father and one or two workmen were drawing off a large bin of wheat into a barge for shipment. Either accidentally or playfully he stepped into the hopper of sliding grain, and was almost instantly drawn under. His father and the man below heard him scream, stopped the running wheat, and went up to see what was the matter. When they reached the top, the boy was entirely out of sight beneath the heavy mass of grain, except one hand and wrist, which he had thrown upward as the grain closed over him. They laid hold of the hand, and tried in vain to pull him out; the pressure was too great, and his body had partially filled the small orifice through which the grain escaped below; consequently the hopper was emptied slowly and with difficulty, and before he could be extricated life was extinct.

A VERY ingenious and Frenchy mode of relieving the hunger of travelers has been adopted on the leading lines out of Paris. At certain stations on the road, the railroad officials, all of whom are dressed in uniform, inquire if you will dine or sup, as the case may be. If you answer in the affirmative the fact is immediately telegraphed to the station where the meal is provided. Even the number of your compartment goes with it. On arriving at the station a box is put into your hands. It contains four courses, with soup and wine. You are allowed forty minutes to eat, which you do while the car is on its way. The dinner is hot and excellent. You eat at your leisure and are charged the moderate price of 60 cents for the arrangement. Your box is taken from you, and you proceed on your way.

JOSEPH MEDILL, of the Chicago *Tribune*, is reported to be in negotiation for the *Republican*, and it is not improbable that he may connect himself with that journal, as his position upon the *Tribune* is not entirely pleasant.

DAVIS LANDON, of Jackson county, Michigan, gives the following information of interest to strawberry eaters: "Two years ago I gathered some large berries from small vines of Wilson's Albany. On examining one of the largest I found three worms coiled up inside. I continued the examination in fourteen berries. I found *twenty four* worms, very full of legs—usually called "thousand legged" worms—and more than an inch in length. There was no apparent scar on the berries."

MECHANICAL MEDICAL APPLIANCES.

There are certain phases of disease, and certain diseased conditions of the human system, which proceed from displacement and mal-position of some of the various organs of the human body. These are not remediable by the usual and ordinary methods used for the cure of other ailments; but require some mechanical stay or support to maintain the parts in position until they are healed. Prominent among these may be classed a displacement called hernia, or rupture, which is a protrusion of part of the bowel, and which must be returned and kept to its place by some outward support which should be properly adjusted in order to secure immunity from inconvenience and danger. The prevalence of this condition is now very common and should be attended to, immediately on its appearance, not only because of the present inconvenience which its produces, but also in consequence of the usual danger of strangulation which is rarely remedied but by a surgical operation.

Varicose veins in the legs and varicocele are other forms of structural changes which need immediate and scientific outward support, in order to afford relief or effect a cure. Each of these conditions are now as much within the pale of successful treatment as any of the other diseases to which mankind are liable.

Stooped shoulders may be cured at once by the use of my Shoulder Braces, which not only maintain the body in an erect position, but at the same time enlarge its capacity, and allow free and full expansion to the lungs, always a necessary condition to a healthy and perfect use of the pulmonary organs.

There are hundreds of females who would find great benefit from wearing these shoulder braces as they are so constructed as to take all the dragging weight from the back or spine and suspend the clothing from the shoulders. Those who use my shoulder braces need not wear suspenders, as they answer the double purpose of shoulder brace and suspenders; in fact they are the best suspenders ever invented. Sold and applied at

DR. KEYSER'S NEW MEDICINE STORE, NO. 167 LIBERTY SREET, TWO DOORS FROM ST. CLAIR. CONSULTATION ROOMS, NO. 120 PENN STREET, FROM 10 A. M. UNTIL 4 P. M. AT THE STORE FROM 4 TO 6 P. M., AND 8 TO 9 AT NIGHT.

A HOUSEHOLD ELIXIR ADAPTED TO ALL CLIMATES.

It would be a happy thing for the world if all the excitants at present used in the practice of medicine could be swept out of existence, and HOSTETTER'S STOMACH BITTERS substituted in their place. There is a probability, too, that this desirable substitution may one day be accomplished. Certain it is, that the GREAT VEGETABLE TONIC is gradually displacing them, and that the confidence of the people in its sanitary and saving properties increases with every passing year. "Figures that cannot lie" show this to be the fact. No medicinal preparation enjoys the like popularity among all classes and conditions in every section of the country. As an appetizer, a general invigorant, a remedy for indigestion, a cure for intermittent and remittent fevers, a general cathartic, a specific for flatulency and sour stomach, a gentle diuretic, a nervine, a blood depurent, a specific for sick headache, a mild anodyne, and, above all, as a PROTECTION AGAINST EPIDEMICS, it is unquestionably the STANDARD MEDICINE of the whole United States. In the towns and cities it is literally a HOUSEHOLD STAPLE. Mothers believe in it. They find it a "present help in time of trouble"—a safe and pleasant remedy for the various ailments to which their sex is exclusively subject. Men believe in it, because it refreshes and invigorates the body and mind, and tones both without exciting either.

WANTED---HELP.

WANTED—HELP.—AT EMPLOYMENT OFFICE, No. 1 St. Clair Street, BOYS GIRLS and MEN, for different kinds of employment. Persons wanting help of all kinds can be supplied on short notice.

WANTED---AGENTS.

WANTED.—AGENTS.—$75 to $200 per month everywhere, male and female, to introduce the GENUINE IMPROVED COMMON SENSE FAMILY SEWING MACHINE. This machine will stitch, hem, fell, tuck, quilt, cord, bind, braid and embroider, in a most superior manner. Price only $18. Fully warranted for five years. We will pay $1,000 for any machine that will sew a stronger, more beautiful, or more elastic seam than ours. It makes the "Elastic Lock stitch." Every second stitch can be cut, and still the cloth can not be pulled apart without tearing it. We pay agents from $75 to $200 per month and expenses, or a commission from which twice that amount can be made. Address SECOMB & CO., Pittsburgh, Pa., St. Louis, Mo., or Boston, Mass.

CAUTION.—Do not be imposed upon by other parties palming off worthless cast iron machines, under the same name or otherwise. Ours is the only genuine and really practical cheap machine manufactured.

WANTED—AGENTS.—To sell the American Knitting Machine. Price $25. The cheapest, cheapest and best Knitting Machine ever invented. Will knit 20,000 stitches per minute. Liberal inducements to agents. Address AMERICAN KNITTING MACHINE CO., Boston, Mass., or St. Louis, Mo.

Stocks declined heavily in the forenoon under sales to realize the advance of the past week and sales on speculative account by one or two prominent operators. Shortly after noon the decline halted and there was a sharp reaction, with Northwestern as the principal feature, a cash dividend thereon of 5 per cent. being announced; common rose to 93¾ and preferred to 106. Afterwards the whole market became weak and unsettled, with a general decline from the highest quotations of the afternoon,

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, May 26, 1869.

The general markets continue quiet and dull and devoid of anything really new or important. The demand for almost everything is confined mainly to supplying immediate wants of consumers, as there is little or no inquiry for shipment, and prices generally are weak and drooping. As we noted yesterday, the dull season is now near at hand, and it is probable that the volume of business during the next two or three months will be very light.

APPLES—Out of season.

APPLE BUTTER—Sales at 1@$1,10.

BUTTER—The hot weather is telling badly on this article, and the market is dull and drooping; prime to choice Roll may be quoted at 24@26.

BEANS—$2@3,00, as to quality.

CARBON OIL—Is quoted in a jobbing way at 29@30.

CORNMEAL—$1,50@1.75 per cwt.

CHEESE—Sales of new Western Reserve at 18@20, and New York Goshen at 22@23.

DRIED FRUIT—In fair demand and limited supply; sales of Peaches at 14 for quarters and 18 for halves, and Apples at 13@15, as to quality.

EGGS—In fair demadd, with regular sales at 17@18, and only moderate receipts.

FEATHERS—Quoted at 80 cts, to the trade, and the usual advance for small lots in store.

FLOUR—Is quiet and a little weak, though unchanged; the receipts have fallen off materially, which indicates that dealers are not disposed to carry any more than they can help. We continue to quote Spring Wheat brands at $6,50@7, and Winter Wheat at $7,25@7,75. Rye Flour, $6,75.

GRAIN—Wheat is weak and drooping and good to prime Red may now be quoted at $1,45@1,47. Oats—we can report sales to arrive at 67@68, buyers furnishing sacks; 70 on track and 75 in store. Ear Corn is still quoted at 78@80, on wharf, and 85 in store. Shelled is selling at 75 to 78@80, for white to strictly prime Yellow. Rye continues exceedingly dull, and we are reported a sale at $1,25. Barley dull and but little offering; prime Spring $1,75.

HAY—Continues very dull, and prices are barely maintained; prime baled is selling on wharf and track, at $25@26, and notwithstanding the arrivals have fallen off materially, the market seems to be over supplied.

HUSKS—Sales corn husks at 3¼.

HEMP—Sales at $215.

HOMINY—$5,75@6 per bbl.

LARD OIL—F. Sellers & Co. quote Extra No. 1, at $1,50 and No. 2, at $1,20.

LIME—Cleveland Lime is quoted at $2 50, per bbl, and Common White at $1,75.

MAPLE SYRUP—Sales in gallon jugs at $1,50.

POTATOES—Quiet and unchanged; may be quoted at 40@45, on track in bulk, and 50@55 in store.

PEANUTS—Held at 12c.

PROVISIONS—Bacon Shoulders; 14; Ribbed Sides 16¼@16½; Clear do, 17¾@18; Plain Sugar Cured Hams 19@19¼; Canvassed do 19¾@20. Dried Beef, 20@20½. Lard, 19½ in tierces, and 20½ in kegs and buckets. Mess Pork $32@32½.

SEEDS—The season is about over and there is not enough selling to establish quotations.

SALT—May be quoted at $1,83@1,85 by the car load, and $1,95@2 for small lots in store.

TALLOW—Is quoted at 10¼@10⅝, for rendered, and dull.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, May 26, 1869.

There was a moderate degree of activity displayed to-day, there having been a fair volume of business in the aggregate, while compared with yesterday prices have still further declined. The most important feature we have to notice is the fact that exporters are reported as having bought pretty freely yesterday and to-day, and this, in the present condition of affairs, may be regarded as a good omen. While it is true that the decline has hurt some operators, yet it is probably better for the trade at large, as it has brouget these foreign buyers into the field, and the market cannot be regarded as being in a healthy condition when prices are so inflated that shipments cannot be made to Europe.

CRUDE.

Compared with yesterday, has declined from a quarter to half a cent and prices are now lower then they have been for several months. Many of our Refiners, however, are still holding, off in expectation that prices will go still lower. We can report 2,000 bbls seller all year at 13; 1,000 spot at 13; 1,000 seller June at 13¼; 1,000 do at 13½; 1,000 do at 12⅞; and 2,000 seller to June 15th, on cars at Venango City, at $5; and it was reported that there was an offer to sell spot at $4,90.

REFINED.

Market weak and lower. Sales 1,000 May at 30¾; two lines of 500 each July to December at 32½; 500 August at 31¼; and 500 September at same figure. Late in the afternoon, it was rumored that there had been a sale of May at 30.

—Since the above was put in type we have the following additional sales of Crude—1,000 June at 13¼; 1,000 July at 13½; and 1,000, seller 10 days, at $5, delivered on cars at Venango City.

Live Stock Market.

NEW YORK, May 26.—The weather is very hot, which depresses the dead meat market and causes all kinds of live stock to sell slowly. Strawberries are so plenty, and selling at 20 cents per quart, that they draw away from meats. Of beeves we have 1,690 fresh and 160 held from Monday, or bought on speculation that day. They haye barely all been sold at the rates of Monday, or 14@16c per pound, with a very few extra fine selected at 16½c. The bulk of the good droves went at 15c in a dull and dragging market; the H. R. drove of fifty rough to good, 7¼ cwt., Illinois cattle, brought 14@16c; 95 fat, 18½ cwt., Illinois, for Eastman, at 15@16½c, and a drove of fair, 7¼ cwt., at 15c. Lambs are rapidly declining at 13½c, being the price of 56 pounds, Jersey stock; a lot of 49 pounds sold for 12½c. Sheep very dull and in fact are not selling, though only 800 arrived this morning; 3,000 are unsold on the market, many of them being held from Monday; prices are weaker; 2 cars, 81 pounds, Indiana sheared, brought 5¾c; 1 car of Ohio, 88 pounds, brought 6¾c, and a car of Michigan wool sheep, 86 pounds, brought 8¾c. Hogs are well under the heat and heavy arrivals; the receipts since Sunday morning are 165 cars; the slaughterers are getting them, so no sales of live can be reported; they are worth 9½@9¾c; dressed has fallen to 11¾c to-day; 57 cars of live hogs arrived this morning.

Cattle Market—CHICAGO, May 26.—Hogs heavy and 50c lower; $8,50@8,75 for fair to good: $8,80@9,00 for good to choice. Cattle quiet at $5,87½@6,25 for common; $6,37½@6,87½ for fair to medium, and $7 @7,40 for good to choice beeves.

Dry Goods Market.

NEW YORK, May 26.—The market continues extremely languid and depressed for most articles of textile fabrics, but still we have no quotable change to observe in prices to-day. Heavy sheetings are selling below cost, and are likely to react on any event within the next twenty days.

FREEPORT.

Country West of Freeport—Bad Condition of the Roads—"Muttontown" and "Slabtown"—Description of a "Barn-raising"—Warning to Farmer Wive-Whippers—Frost, Fruit, Game, &c.

[Correspondence of the the Pittsburgh Gazette.]

FREEPORT, Pa., May 24, 1869.

The country around Freeport, especially in the direction of Butler, is very hilly, there being scarcely any of what may be designated "level land." These hills are, however, mostly underlaid with a superior quality of "black diamonds," which the projected railway will, ere long, bring into market. The value of land has already materially advanced in contemplation.

The roads compare quite unfavorably with your Nicolson pavement on Fifth avenue and Wood street; the difference is at once discernible. I refer more particularly to the Freeport and Butler pike, which has been in an almost impassible condition since the late rains—nothing but rocks, ruts and mud—and I was not surprised to observe on a recent drive of a few miles the wrecks of half a dozen vehicles and the remains of half that number of horses. Fence rails are numerous along the sides of the road, which have been used in assisting the stage and other vehicles out of holes. The houses are principally logs and mortar, one and a half stories high; a few are neat frames, none stone or brick. Perhaps I should here state that the worst portion of the "pike" lies in Armstrong county, and that the authorities are about being sued for damages, a lady having had a limb broken by the overturning of her conveyance in consequence of the bad road.

Monroeville, or "Muttontown," as the neighbors dub it, some three or four miles distant, is the identical village, so often described--a tavern stand, blacksmith shop, grocery store, school house, squire's office, shoemaker's shop and a score of frame and log dwelling houses. The people are thrifty and contented, and evidently enjoy life quite as well as the residents of towns of larger pretentions.

Sarversville, or "Slabtown," a couple of miles beyond, may be styled a "second edition" of the above named place, with this exception, that it has a first-class dry goods and grocery store and *three* blacksmith shops. This was as far as my drive extended. The spirit of improvement exhibited in these towns is not of a very demonstrative character—not so much so as is anticipated when the railroad shall have been completed—still I am told a number of houses have been built within the recollection of the "oldest inhabitants."

On Saturday last we had in the vicinity what is called a "barn-raising;" and for the information of any of your readers who may have as crude notions on the subject as the writer had, I will explain the *modus operandi:* The foundation walls are first built up; each side and end of the frame of the building is constructed separately, with the ends mortised so that they will fit together; when all is in readiness, people from far and near to the number of fifty or sixty are invited to be present on a specified day; and the "barn-raising" consists of elevating the frame work to the proper place, joining it at the corners, and bracing the whole inside with heavy timbers. Nearly all day was consumed in this job. As usual on such occasions, several accidents occurred—none, however, of a serious nature. A grand dinner was served up to the "assembled wisdom."

The heavy frost on Sabbath morning did very little damage, as the fruit and vegetables are too far advanced to be much injured thereby.

This story is told concerning an apple tree on the place at which your correspondent has spending a few days. While a former owner of the farm and his wife were planting the orchard, he became angry at her, and picking up a young tree, gave here a severe beating. The tree was afterwards planted; but it has grown very crooked, bears small knotty apples, and each year the hornets built a nest in its branches. A warning to farmers who may be inclined to whip their wives.

Foxes, crows and polecats are quite numerous. The dogs "treed" two coons near the house a few days since, which were killed; and, judging from the odor arising from one of the dogs this morning, he has evidently very recently come in contact with one of the last named animals. That dog has to keep at a distance from the house. Game of various kind is becoming plenty.

I will conclude this letter by stating the fact that there is no tavern or grog-shop in either Freeport, Monroeville or Sarversville, where liquor is licensed to be sold. These towns are uniformly carried by the Republicans.

Yours, &c., F.

General Holidays.

The Legislature of Pennsylvania, by an act approved April 12, 1869, has provided that hereafter, Good Friday shall, each and every year, be observed as a public holiday, and that the payment of all negotiable paper becoming due on said day shall be deemed to become due on the secular day next preceding. The Legislature is gradually and cautiously increasing the number of holidays. By act of April 11th, 1848, Christmas Day, New Year's Day, Fourth of July, and days fixed upon by law, or by the proclamation of the Governor as days of general thanksgiving or for the general suspension of business, were made public holidays.

By act of May 7th, 1864, the Twenty-second of February, Washington's Birthday, and by act of April 12th, 1869, Good Friday, were added to the list. The Legislature, however, has made no provision for the observance of the day substituted by popular agreement for the holiday when, as in the case this year with the Fourth of July, it falls upon Sunday. The fifth of July is clearly not a day fixed upon by law for the general suspension of business, and it would appear that the Governor must issue a proclamation, as he is empowered to do, declaring the proper day to be observed. In Massachusetts a law has been passed to meet the contingency mentioned, and according to the Boston newspapers, the Fourth of July in that State will be celebrated this year on the third, or the Saturday preceding. Here, however, the practice is to observe the day subsequent, and the discrepancy between the custom in different parts of the country should be removed.—*Philadelphia Ledger.*

CLIPPINGS.

THE Lynn *Reporter* states that Prof. Park, of Andover, has been ordered by his physician to abstain from work of every kind, under fear of blindness. His eyes which have long been weak, owing to an injury received in the beginning of his ministry, have grown seriously worse the last few weeks.

ISAAC PITMAN, the inventor of the phonographic system, has published an edition of the Bible, written wholly in phonography. The same thing was done here with the Book of Psalms, some years ago, by Mr. Ben Pitman, and a more elegant work of phonography was probably never issued.

THE Titusville *Herald* says, the Allegheny Valley Railroad will construct a bridge across the Allegheny river during the coming summer and autumn, thus connecting with the Oil Creek and Allegheny River road. The survey has been made for this purpose, and the Company is now preparing to push the work to completion. The bridge will be located above the river bridge, starting at a point near the passenger depot, on the Venango City side, and crossing obliquely will gain a point near the old mill on the Oil City side, where it will connect with the Oil Creek and Allegheny River road.

A SAD CASE.—The Cleveland *Leader* says: "Our readers will remember the terrible casualty which occurred on Columbus street a few days since, by which three children were buried under a sand bank, their bodies being exhumed after twenty-eight hours. A sad sequel to this lamentable disaster is the death of Mrs. Graf, mother of two of the children, which occurred on Friday evening, from the effects of the shock she received. Prostrated and overcome with grief, she never rallied, but sank gradually away until she went the way of her little ones. The stricken husband alone remains of the family of four."

THE septennial meeting of Dunkards is now in progress in Botetourt county, Virginia, and is attended by delegates from all parts of the United States. The number of delegates and visitors expected to take part in the proceedings is estimated at from ten to fifteen thousand. The arrangements made to entertain this vast number of people are on an extensive scale, no less than eighty cattle having been fattened for the occasion. Kissing and feet washing are the two prominent features of the exercises, these ceremonies being strictly confined to the sexes to which the participants belong—men kissing men and women kissing women.

JERUSALEM.—It is stated that a turnpike road is now in course of construction between Jaffa, the old Joppa, on the sea coast, and Jerusalem, a distance of thirty-six miles. The engineering is very rude, but part of the road is already finished, over which is running an omnibus, driven by a New England stage driver, one of the survivors of the American colony at Jaffa. The Turkish Government has collected $250,000 to pay for the road, and also compels the inhabitants to work upon it, at very low rates. Tollgates have already been established. Jaffa is only accessible in a calm, but with this disadvantage, its exports of cotton, fruit, oil and sesame seeds amount to $2,000,000 per annum.

A HORRIBLE CASE of religious aberration recently occured in North Carolina. A Mr. Loud, Jane his wife, and four children named Sarah, Polly, Eli and Nimrod became insane by attendance at a "protracted meeting," and began to see visions. Sally claimed to be the true God, the mother often saw Polly on the cross, and sometimes herself felt on her head the thorny crown, and felt in her side the spear, as her Savior had done before her. They held meetings in the fields, and were seen one day with their sleeves rolled up above their elbows, knocking dried chestnut-burrs about from one to another untill their naked hands and arms were covered with blood. One night, while Sally and her mother discussed some passage in Scripture, a dispute arose, occasioned by both of them claiming to be God. The mother thought Sally was the devil, and ordered her sons and husband to tie her; they did so, and thrust her, her hands tied together, out of the door. She attempted to get in, James seized a bit of board and tried to push her away, while the mother, unable to hold the door against her, ordered Eli to shoot the devil, he fired, hitting her in the hand, and then, as they described it afterwards, "the devil scrambled off the door-step." Soon she was back again, putting her bloody hands in at a hole in the top of the door, when Eli was again ordered to shoot. Nimrod loaded the rifle with two bullets, gave it to Eli, who said "Father, must I shoot?" "If nothing else will do," said he, "you must shoot," and said Eli, this time I *plumbed* him right between the eyes." The body lay outside the door until daylight; then the mother ordered the rest to carry the devil to the log heap and burn it. This they did, nothing being left but a bit of the spine and skull, a rib or two, some portion of the abdomen, and the outline of the sweeling shoulders and hips in the ashes. The family were taken to jail, and while they were all occupying the cage, a room grated with iron on the the top and sides, the sons killed their mother by choking her. A trial resulted in their acquittal on the ground of insanity.

Accident to Judge Black.

A special to the Louisville *Courier-Journal*, from Shepherdsville, Ky., May 24th, says:

This evening, about half-past five o'clock, as the train going South approached Strawberry Station, a serious accident befel ex-Attorney General Black, who, with his wife, was a passenger *en route* to New Orleans. Judge Black occupied a seat in the sleeping car, where he was engaged in conversation, having his elbow protruded carelessly out of the window. While in this posture it was suddenly struck by a box car, instantly crushing it. On arriving at Shepherdsville a telegraphic message was dispatched to Dr. D. W. Yandell, of Louisville, who was conveyed down the road by a special train provided at once by the railway officials. Dr. Yandell arrived at Shepherdsville about eight o'clock. He found Judge Black's arm broken in four places. The doctor placed the wounded arm in field dressing and conveyed the unfortunate gentleman back to Louisville, placing him in St. Joseph's Infirmary, where he will remain for the present. The injury, though extremely painful, will not, in the opinion of Dr. Yandell, necessarily involve the loss of the arm. Judge Swayne, who accompanied Judge Black, returned with him to Louisville.

SPECIAL NOTICES.

☞ **SCHENCK'S PULMONIC** SYRUP, SEAWEED TONIC AND MANDRAKE PILLS will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use in any way with great care,) that will unload the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secret ons, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. Having pronounced liver and lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fully and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfect alteratives.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by this treatment alone, and now enjoys his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at the Philadelphia office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Tuesday, and at No. 35 Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. my19:151-d&F

AN ORDINANCE

To Authorize the Grading and Paving of Jefferson Street from Beaver Street to Shields Alley.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That the Committee on Streets be, and they are hereby authorized and directed to invite and receive proposals for the grading and paving of Jefferson street, as aforesaid, and to contract therefor with the lowest and best bidder or bidders, at their discretion.

SEC. 2. That for the purpose of defraying the cost and expenses of said improvements, there be, and is hereby levied, a special tax, to be equally assessed upon the several lots bounding and abutting upon the said Jefferson street, respectively in proportion to the feet front in them respectively comprised, and bounding and abutting as aforesaid.

SEC. 3. That as soon as the cost and expenses of said improvements shall be duly ascertained, it shall be the duty of the Street Commissioner to assess and apportion the same among the several lots bounding and abutting upon said Jefferson street respectively, according to the rule above indicated, and thereupon proceed to make demand and collect the same, according to the provisions of the Act of the General Assembly of the Common

CITY AND SUBURBAN.

THE GAZETTE is *furnished in the city the six days of the week for 15 cents per week; by mail, $8 per annum: 3 mos., $2.*

The street sprinklers find plenty to do at present.

The small-pox prevails to an alarming extent in some portions of the city.

Allegheny Councils will hold a regular meeting this evening at seven and a half o'clock.

A sickly season may be anticipated as the result of the kind of weather we have had during the past fortnight.

The First ward square of the Allegheny Diamond, should be kept in better order. It is now in a bad condition.

Repaired.—Garrison alley, from Liberty to Penn street, has been repaired and is now in a most excellent condition.

Flowers are very scarce in our vicinity at this time. Considerable difficulty is experienced in securing a supply for Decoration Day.

Lecture to Ladies.—Dr. Gleason lectures this evening to ladies only, at Excelsior Hall, Allegheny City. Splendidly illustrated with models, manikins, &c.

Workmen were engaged yesterday in cleaning out the sewer drops in Allegheny. They needed some attention, judging from the amount of filth removed.

Repaired.—The cobblestone paving on Penn street, from Cecil alley to Third street, has been repaired, and the street between these points now presents quite a respectable appearance.

Arm Broken.—Thomas Millen, a young lad had his right arm broken, yesterday morning, by falling from the top of a crane on a boat moored at the foot of Market street, on the Monongahela river.

The Street Commissioners of the First and Second Districts are unusually busy at present and have been for some time past in cleaning and repairing streets. Messrs. Hunter and McFadden are active and efficient officers.

Lay Delegation is now the absorbing theme of discussion among members of the Methodist Episcopal denomination. Arrangements are being made in the churches for taking the vote on the question toward the latter part of next month.

Drunk and Disorderly was the verdict rendered last evening in the case of Charles Snyder, arrested Tuesday night by the Allegheny police on Lacock street. He was sentenced, and paid a fine of ten dollars, before Mayor Drum.

Offensive.—The smell of escaping gas at the corner of Diamond and Smithfield street is extremely offensive, and if the proper authorities do not take some means of stopping the leak, the Health officer should give the matter his attention.

Flowers.—Persons residing in East Liberty or viccinity, wishing to donate flowers for use on Decoration Day, may leave them at McClarran's Drug Store, on or before Friday evening, where they will be taken charge of by Post 117, D. P. G. A. R.

Reorganization.—The members of the Allegheny County Tanner's Club are requested to meet this evening at seven and a half o'clock, at the Hall of the Firemen's Association, City Building, for the purpose of reorganizing for the campaign.

Attention is directed to the advertisement of a male and female seminary offered for sale in another column. The chance for those wishing to engage in the profession of teaching is a splendid one, and the bargain should soon be taken.

The Diamond Alley Sewer has been completed, and the drops will probably be finished this week. Workmen were engaged yesterday in placing new gas pipes in the alley, which possibly accounts for the smell of escaping gas at that point.

Political.—The name of John M. Larimer, of Chartiers township, will be presented before the Republican Convention for nomination as Clerk of the Orphans Court. Mr. L. is a worthy, honest and capable gentleman, and if elected would admirably fill the office.

Wanted—Situation.—By a young man as book-keeper or assistant book-keeper, good penman, and has had several years experience in store and bank. Can furnish good reference and security, if required. Address box A GAZETTE office, or call at the GAZETTE Counting Room.

Foot Crushed.—Yesterday morning about ten o'clock Mr. James Hunter, boss roller at the mill of Porter, Dilworth & Co., South Pittsburgh, had has foot crushed by the falling of a roll which he was attempting to shift from a rack. Drs. McCook and Roberts attended him.

Pic-Nic.—Providing the weather is favorable a pic-nic will be held this day and evening, at Linden Grove, for the benefit of Mr. J. T. Harper, a one-legged veteran of the army. The arrangements are on the grandest scale, and no disreputable persons will be permitted on the grounds.

Boisterous.—Three "Nymphs" yesterday attended a picnic at Iron City Park, where they acted in a disorderly manner and were ejected from the grounds. On their way to the city they became boisterous, and were arrested in the vicinity of the Skating Park and conducted to the lock-up, where they remained for the night.

Cheap Shoes.—Jane Black, residing at 16 Cherry alley, alleges Jennie Middleton, some time ago, purloined from her a pair of shoes valued at one dollar and fifty cents. The charge was made before Alderman Strain several weeks since, but Jennie managed to keep out of the way until yesterday, when she was secured. She denied the charge and gave bail for a hearing.

Atlantic Base Ball Club.—At a recent meeting of the Atlantic Base Ball Club, reorganized for the season, the following officers were elected: President, W. W. McCandless; Vice President, Harry Palmer; Recording Secretary, B. F. Lloyd; Corresponding Secretary, Cal. Rayburn; Treasurer, A. D. Keally; Directors, W. W. McCandless, D. Brosey, Cal. Rayburn, J. Robb, W. Moore.

The Pardon of W. J. Robinson.—A morning cotemporary publishes a list of names, upon the strength of which the Governor doubtless granted the pardon of W. J. Robinson. Among these appears the name of "John M. Kirkpatrick," is not our friend Judge Kirkpatrick, of the District Court, but another person of the same name, a friend, we believe, of Robinson, and one of the main witnesses in his behalf at his trial.

In Demand.—The committee of ladies who kindly volunteered to procure flowers with which to decorate the graves of soldiers, request all persons having flowers to donate to send them to Masonic Hall Friday, as early in the day as possible. The demand for flowers will be heavy, and we fear will exceed the supply, unless persons residing in the country respond liberally to the request of the committee.

Obstructing the Street.—Street Commissioner McFadden, of the Second district, yesterday made information before the Mayor, charging Mr. Reno, the contractor for the construction of the Diamond alley sewer, with obstructing Diamond street. It appears that the accused has constructed a mortar bed on said street and refused to put up a proper barricade to prevent injury to persons and horses. A summons was issued.

Assault and Battery.—Adolph Sallar made information before the Mayor, yesterday, charging Thomas Steel with assault and battery. The accused is a son of the proprietor of the Eagle Hotel, on Liberty street, and the prosecutor is a saleeman in a clothing store adjoining the Hotel. The parties had a difficulty about the purchase of a box of collars, and, as the prosecutor alleges, Steel attacked and beat him. A warrant was issued for the arrest of Steel.

In Great Danger.—The life of Mary Murphy, residing near the Copper Works, Soho, is certainly in great danger, if her statements can be relied upon. Yesterday she appeared before Alderman Lynch, and lodged information against four of her neighbors, named respectively Mrs. Zarner, Mrs. Edwards, Mrs. Gallagher and Mrs. Davis, all of whom she alleges threatened her with such fierce punishment for some fancied affront that she is in continual fear for her life. Warrants for the arrest of the terrible quartette were issued.

Had no Permit.—Mr. Burkle, a plumber residing in Allegheny, opened Fulton street for the purpose of putting in a water pipe without a permit. Street Commissioner McFadden, on finding him at work, asked to see his permit for opening the street, and not having procured one, of course he could not exhibit it. He was then directed to go to the office and get one, and the work stopped, but after the Street Commissioner left instead of complying with the city ordinance and procuring a permit, he proceeded with the work and completed the job. The Street Commissioner made complaint before the Mayor, and a warrant was issued.

Elopement.

Tuesday evening a German farmer at Fleming Station, seven miles below the city, on the Pittsburgh, Fort Wayne and Chicago Railroad, returned from his labor in the field to find his house deserted, his connubial partner absent, and his family treasury depleted to the amount of seventy dollars. Investigating further he ascertained the lady had disappeared in company with a youthful Teuton, one of his former employes, who had been recently discharged. After careful reflection, he accepted the situation philosophically, and has since attended his duties as though nothing had happened.

In Search of a Brother.

James Gillam, a resident of Bridgeport, Braxton county, Alabama, arrived in the city yesterday evening in search of his brother, John J. Gillam. He states that his brother left home and came North in 1860. In '61 he enlisted in the Union army and was honorably discharged at the close of the war, after which he came to this city, where he remained until about a year ago, since which time he has not been heard from by his friends. Any information concerning him left with the officers at the Union Depot will be thankfully received.

Disorderly.

John Eggin was arrested yesterday on a charge of disorderly conduct. It appears that Eggin is a stranger in the city, and yesterday morning, having taken an unusual quantity of "benzine" on board, met Miss Lizzie Graham at the corner of Fifth Avenue and Smithfield street and insulted her. The girl, who is only fourteen years of age, walked away and left him, but he was persistent in his impudence and followed her. She then called the attention of a policeman to his conduct and had him arrested. He was taken to the lock-up, where he remained until four o'clock, when, after a hearing, he was fined ten dollars and costs.

Point Litigation Ended.

The foolish litigation between the residents on Point street, which has been going on for some time past, was finally concluded last evening by Alderman Strain, before whom the majority of the cases were tried. The last case was a cross suit so interminably crossed and recrossed that no ordinary intellect could discover prosecutor from defendant, and the genial temper of the official was at length so greatly crossed that he summarily disposed of the matter by dismissing the whole affair, administering a severe lecture to all the parties and assuring them that in the future the fullest measure of the law would be meted out to all offenders.

Policeman Caned.

Monday Mr. Charles E. Speer, the gentlemanly Assistant Cashier of the First National Bank, presented Mr. Robert Irwin, one of Mayor Brush's best policeman, with a handsome ivory headed cane. Mr. Irwin is the courteous policeman stationed at the corner of Fifth avenue and Wood street, and so well does he perform his duties to the city, and at the same time keeping clear all obstructions from in front of the bank, that Mr. Speer, as a reward of merit, in behalf of the bank, made him this handsome present. Being personally acquainted with Mr. Irwin, we can say he is a model of a policeman, and not excelled by any man on the force.

Newspaper Change.

The Pittsburgh *Republic* made its appearance yesterday under new auspices, Messrs. Case, Murphy and Heazelton having purchased it from the late proprietor, Col. N. P. Sawyer. Mr. Case is well and favorably known in this community, having occupied for three years past the position of City Editor of the *Dispatch*, meriting not only the confidence and respect of his employers, but likewise of the entire public. He is energetic, shrewd, painstaking and accomplished, and worthy the largest measure of success. Mr. Murphy is a practical printer and an industrious gentleman. He will have charge of the mechanical department, while Mr. Heazelton, the remaining partner, and a gentlemun of liberal business experience, will preside over the office. We sincerely trust the firm may receive that share of public patronage they deserve.

SYNODICAL PROCEEDINGS.

General Synod of the Reformed Presbyterian Church at Cedarville, Ohio.

FIFTH DAY—AFTERNOON SESSION.

Synod met at three o'clock, and was opened with prayer by the Moderator, Rev. M. Harshaw.

Dr. Douglas presented in the name of the proprietors, a copy of the *United Presbyterian*, of Pittsburgh, to each member of General Synod.

On motion of Peter Gibson, Esq., a vote of thanks was passed to the proprietors of the *United Presbyterian* for their consideration and generosity.

Proceeded to the order of the day, the consideration of the paper from the Sabaranpur Presbytery and the resolutions of Dr. McLeod.

Dr. McLeod gave a short history of the Mission in India. He was sure that it would not be abandoned by the church now. He called on the Secretaries of the Board of the Old School in New York before he came to Synod. They assured him the Missionaries had not reported the act of their suspension to them. The Secretaries told him they believed the Missionaries had gone out of their sphere in suspending relations to Synod. They had been influenced by news "manufactured" in Pittsburgh, and sent broadcast over the world. They should have waited until they received the minutes of Synod. But he held there was a difference between a Presbytery among the heathen and a Presbytery at home. There was a Mission in India before there was a Presbytery, and there may be a Mission, even if there were no Presbytery there now.

Rev. A. G. Wylie believed in calling things by their proper names. He did not wish to say they had a Mission when they had none. He would not compromise the Synod but would treat the Sabaranpur Presbytery as they had treated the Philadelphia and Pittsburgh.

Mr. Stewart believed they had a Mission and should support it. The best thing they could do would be to pass the paper.

Mr. James C. McMillan took a great interest in the matter. He believed the olive branch should be held out. Write the missionaries and entreat them to reconsider action.

Rev. J. S. Scott believed that everything that had been said in favor of the Sabaranpur Presbytery only aggravated her case. She should be treated as the other Presbyteries had been.

Rev. A. G. Wylie said he would read from the sixth resolution of the Sabaranpur Presbytery, which stated that they "could never consent to represent among the heathen, a church holding the doctrines they (the Synod) have affirmed in the decision under review."

Dr. Wilson was opposed to hasty action. He thought a letter should be written, and Synod should wait a year.

Dr. McMaster would like more light before he gave his vote. He would like to hear the report of the Board of Foreign Missions before he gave his vote. They should treat the Sabaranpur as they had treated the other Presbyteries.

The following are the principal resolutions in the paper:

Resolved, That the General Synod views the action of the Presbytery of Sabaranpur in the premises with profound regret; that they affectionately require them to reconsider said action, and return to their spiritual Mother who sent them to serve God among the heathen.

Resolved, That a Committee of Three be appointed to address a letter to the Presbytery of Sabaranpur, conveying a copy of these resolutions, and that further action in the case be suspended until they shall be again heard from.

Resolved, That the Reformed Presbyterian Mission in India is hereby declared to be still the property of General Synod.

Resolved, That the Board be directed to seek for and send to India a competent missionary to preach the gospel to the heathen and take charge of the interests of the Mission.

S. B. W. McLeod, M.D., thought there was a great similarity between the paper and the plan proposed by Dr. McMaster. Pending the discussion Synod adjourned, Rev. J. F. Morton concluding by prayer.

SIXTH DAY—MORNING SESSION.

Synod met at 9 o'clock and was opened with prayer by the Moderator. Spent an hour in devotional exercises. Addresses were delivered by Messrs. J. C. McMillan and Isaac Kirpatrick on the "Work of laymen in relation to the ministry," and the "Social Prayer Meeting."

Resumed business. Minutes read and approved.

The Special Committee to whom the papers from the Second Church, Philadelphia, and the First Church, Allegheny, were referred, reported that they had considered said papers and heard the Commissioners from the congregations on the subjects referred to in them, and would recommend the adoption of the following preamble and resolutions:

That *whereas*, the Commission appointed by General Synod in 1868 did resolve that the Reformed Presbytery of Philadelphia, having by its own act declined the authority of the General Synod, and withdrawn from its jurisdiction, the officers and members thereof are hereby declared to be without the jurisdiction of General Synod; *and whereas*, said Commission did resolve that such officers and members of the other congregations, viz: the Second and Fifth congregations of Philadelphia, and the vacant congregations of Milton and Ulster, who may not identify themselves with the acts of secession of the Philadelphia Presbytery, but avow their adherence to the General Synod of the Reformed Presbyterian Church, be declared to be the Second and Fifth congregations of Philadelphia, and the congregations of Milton and Ulster, under the care of General Synod, and the liberty given them to place themselves under the care of the Second Presbytery of Philadelphia, and that Presbytery authorized to receive them upon their application; and *Whereas*, General Synod has approved the acts aforesaid of said commission; and *Whereas*, Certain members of the Second Reformed Presbyterian Congregation of Philadelphia, whose names appear in a paper presented to General Synod, and referred to it by your Committee, has declined the authority and jurisdiction of the so-called Philadelphia Presbytery, and desired to maintain relations, and be in subordination to General Synod, and have asked the counsel and advice of General Synod in the premises; and *Whereas*, General Synod has declared that the Presbytery which is represented by Rev. John Douglas, D. D., Rev. John Alford and others, on the floor of Synod, to be the only Presbytery of Pittsburgh in connection with the General Synod of the Reformed Presbyterian Church in North America; and *Whereas*, General Synod has declared that Rev. Geo. Scott, D. D., Rev. John McMillan, and others, who have suspended relations to General Synod, have thereby seceded from her control, and placed themselves beyond her jurisdiction, Therefore,

Resolved, That the members of the Second Reformed Presbyterian Congregation, of Philadelphia, whose names appear in their paper, aforesaid, together with others—officers and members—of said congregation, who may unite with them, be, and are hereby declared to be, the Second Congregation of the R. P. C., and as such entitled to all the rights and immunities appertaining thereto; and they are hereby directed to place themselves under the care of the Presbytery represented by Drs. Crawford and Steele, and others, on the floor of General Synod, and that Presbytery is hereby authorized to receive them.

Resolved, That the Presbytery known as the Second Reformed Presbytery be henceforward designated as the Reformed Presbytery of Philadelphia.

Resolved, That the members of the First Presbyterian Church, Allegheny, whose names appear in their paper, declining the authority of those who claim to act as the session of the First Reformed Presbyterian Church, Allegheny, and as such entitled to all the rights and immunities appertaining thereto, and that their action in putting themselves under the care of the Pittsburgh Presbytery, and the action of said Presbytery in receiving them, are hereby approved.

Laid on the table, and made the order of the day for the afternoon.

Rev. J. F. Morton presented the report on Temperance. It recommends a prohibitory law. Adopted.

Rev. J. Alford offered a paper favoring the National Reform movement, which contemplates an amendment of the National Constitution so as to recognize God as the source of all power, and Jesus Christ as the Prince of the Kings of the Earth. Adopted.

Dr. McMaster presented an amendment to the paper offered yesterday by Dr. McLeod, in relation to the Sabaranpur Presbytery. It was as follows:

Resolved, That inasmuch as the Sabaraupur Presbytery did, at its meeting, August, 1868, suspend relations to this Synod, and did, in their meeting in March of the present year, re-affirm their action in this regard, they are hereby declared by their own act to have placed themselves without the jurisdiction of this Synod, and we do not, therefore, recognize them as the missionaries of this Church.

Resolved, That still recognizing them as ministers of Christ, and as doing the work of missionaries among the heathens, we recommend to our people to contribute for their support in the meantime, until time be given to communicate with them and ascertain whether they will not reconsider and annul the hasty and obnoxious resolution by which they have placed themselves beyond the jurisdiction of this Synod.

Resolved, 3. That we still claim the mission as belonging to this Synod and enjoin upon our congregations to sustain the heathen orphans and the schools as heretofore.

Resolved, 4. That should the resolution suspending relations not be rescinded, the Executive Committee of our Board of Foreign Missions be instructed to take the steps necessary to possess the mission property, and to secure other missionaries who may go out in our name and carry on the mission as our representatives in Northern India.

Rev. A. G. Wylie offered a substitute for the whole matter before Synod. Not entertained.

Dr. McMaster withdrew his amendment, and said he would offer amendments as Dr. McLeod's paper was read.

Synod adjourned to meet in the afternoon, Rev. A Woodside concluding by prayer.

The Twenty Thieves—Bonds of Promise.

For some time past residents in the lower part of the Third and portions of the Fourth wards, Allegheny, have been annoyed by the mysterious disappearance of articles from about their premises. The articles taken were generally found in halls connected with the house, and from the manner and frequency with which they disappeared, it became evident that a regular band of thieves were at work. Detectives were placed on watch, and succeeded in getting a clue to the suspected parties, but nothing definite was arrived at until yesterday, when officer Fahr, of Alderman Bolster's police, arrested a young lad on suspicion of being the ringleader of the depredators. The boy, during Tuesday, sold a saddle to a resident in the vicinity, who, thinking it too cheap to have been procured honestly, at once informed the officer of the circumstance, which lead to his arrest. The lad, apparently not more than thirteen years old, when taken before the Alderman, gave his name as Andrew Rutlinger. A number of rings of all sizes and descriptions were found upon his person, which tended still more to confirm the suspicions entertained of his character. Soon after his arrest it was discovered that the saddle had been stolen, and was accordingly held for investigation. Subsequently, four companions, named respectively Herman Miller, George Schmidt, George Wagner and Edward Rinecold, were arrested on suspicion of being implicated with him in the thieving operations. All the boys had been observed spending money freely, which first directed suspicion toward them. From information received it is believed they belong to an organized gang, numbering not less than twenty, who are supplied with all the appurtenances for carrying on burglarious operations. Some of those arrested made confessions, which resulted in the recovery of a number of articles, which were identified by the owners. These persons, however, owing to the youth of the prisoners, refused to prosecute, and rested satisfied with the recovery of their property.

Two of the boys, Rutinger and Schmidt, were committed, and the others gave bail for a hearing. Warrants are out for a number of others, supposed to be members of the gang, and it is probable the whole affair will be sifted in a few days. None of the boys thus far known are over thirteen years of age, but they are said to be considerably older than that in crime. The value of the property taken cannot be estimated, as it was stolen at intervals extending through two or three months.

The Huckster Nuisance.

MESSRS. EDITORS GAZETTE: I have seen that hawkers and grocery keepers have bought vegetables under the nose of the Constable, to sell again, in our city markets. Inquiring of Mr. Messner, the Market Constable, for the reason why he did not interfere with such outrageous proceedings, he told me that the Mayor would not entertain any suit against a hawker or grocery keeper until a suit pending before the Court is decided. In the meantime he (the Constable) should note down the offenders against the law. The Constable told the Mayor this was a wrong course. The offender should be taken before the Mayor and bound over for the offence, but His Honor thought otherwise and the citizens have to suffer. What is to be done in this case? A CITIZEN.

We cannot exactly answer our correspondent, but the Mayor is bound to receive any information made against the offending parties. This is a subject for the consideration of the Market Committee of the City Councils.

Persons should always make it a point before making their purchases, to go to the place where they can get the best goods for the least money. Beggs & McGraw have just received from the East a splendid assortment of Queensware, at No. 10 Diamond, Allegheny.

A TRIUMPH.

A Palace on Wheels—An Elegant Car from the Fort Wayne Railway Shops.

The day for riding in close box cars with little or no ventilation, rudely furnished and uncomfortable, has gone by, and a new era has dawned for travelers. Each returning year finds our railway managers more anxious to attain the great objects of comfort and convenience in their carriages, and to render traveling pleasant and agreeable rather than monotonous and tedious. The ordinary coaches of the present day, which are whirled along the smooth iron tracks of our leading railways are palaces when compared with those in vogue scarcely a full decade of years ago; but even these grow dim and ordinary when the line of comparison is drawn between them and the luxuriant palaces on wheels which are used as sleeping coaches for long stretches of travel. Yesterday we were kindly permitted by Superintendent Layng, of the Pittsburgh, Fort Wayne and Chicago road, to examine and inspect what may justly be termed the finest railway carriage in the world. It stood in its quiet grandeur all day in the yard of the company, and attracted the largest attention, hundreds of visitors crowding into it to admire its handiwork and share in the triumph of American mechanics. The exterior of the car is finished in magnificent style, painted bright and beautiful, and so highly finished as to faithfully mirror objects about it. The car rests on two staunch six wheels trucks, supplied with the best of elliptic springs, made ont of Pittsburgh steel by the Pittsburgh Cast Steel Spring Company, for which Mr. A. French is the agent. The trucks are as pretty twin pieces of mechanism as we have ever examined. The bottom of the car has double flooring of heavy timber and lighter boarding running transversely, and in addition to this protection from the axles, rails or trucks being forced upward into the car, as has frequently happened in railway accidents, double protection is afforded by heavy iron rods designed to resist the trucks if forced upward. On the side of the car is a golden allegorical medalion of night, beneath which is the great word Pullman, which is regarded with reverence and respect by all who have "been to the West." Not to know Pullman is to be unacquainted with the western monarch who presides with so much grace and ability over the destinies of the model sleeping and dining cars of the world. He is in the West what Woodruff is in the East, and together they both engage in friendly competition as to which can surround the traveler with most luxury, or come the nearest to converting the swift moving sleeping car into a palace fit for kings.

The interior of the car is so grand and gorgeous that we hesitate before attempting to describe it even in general terms. The floors are carpeted with the richest moquet in bright light colors, in keeping with the elegant upholstery of the silver armed seats. Along the ceilings are bars of silver the full length of the car, and here and there are ornamental designs in silver to please and relieve the eye. The lamps are all silver, and of finely cut glass. In an instants time the seats are converted into soft downy couches, supplied with the best of bedding and covering. Every inch of space is economized and made serve a useful and ornamental purpose. The entire wood work is black oiled walnut, with gold trimmings. The windows are of fine plate glass, and between every pair there is an adjustable table which can be set up firmly for writing purposes, reading, card playing or games between passengers *vis-a-vis*. The mirror between the windows is so constructed that by pushing a spring it disappears and a lamp in a neat little silver cove is brought to view. The stove is in the rear, standing in a niche guarded by several layers of zinc from floor to ceiling. Beneath it is a vessel of water, and from the roof down to the water there is a large pipe for ventilating the car with fresh air. The air sweeps through the water and, discharging its dust therein, reaches the passengers pure and refreshing. The car has a state room which will close compactly. It has a fine saloon attached, and well arranged conveniences for making the toilet. Altogether, we believe it to be the finest car ever placed on wheels, and reflects the highest credit to the builders.

The car was built at the Fort Wayne shops of the Pittsburgh, Fort Wayne & Chicago Railway Company, under the immediate superintendence of Mr. William Waddington. The capacity of these shops to turn out fine cars has always been recognized, but in the present instance it is demonstrated that nowhere else in the country has greater perfection in car building been attained. Mr. Babcock, the gentleman who accompanied the car to this city, and to whom was entrusted the execution of the details of its workmanship, informed us that the twin mate of the car left the shops at the same time and was at once placed by Pullman on the Union Pacific road. Two more of the same sort are now building at the shops and will soon be completed. It is a matter of congratulation with the Pittsburgh, Ft. Wayne and Chicago Company, that they have within themselves the means and ability to compete with the world in car building, and the care and excellence displayed in all parts of the new car is full guarantee of the proficiency of their workmen.

Amusements.

OPERA HOUSE.—Notwithstanding the extremely unfavorable weather a very respectable audience assembled at the Opera House last evening to hear the Chapman Sisters in the burlesque entitled "Fra Diavolo." Mr. Bishop's "Beppo" was unexceptionable, and notwithstanding that the author has sacrificed all the remaining characters for the sake of Beppo, concentrating all the amusement in the one, it is by no means the cream of the entertainment, when the roles of "Fra Diavolo" and "Zerlina" are filled respectively by Blanch and Ella Chapman. The singing of the former is exquisite, and the vivacity of the latter is particularly entertaining. If Ella Chapman is not the peer of Lotta, who has heretofore been without a rival in her line of characters, she is certainly a dangerous rival, and having the advantage of youth by several years at least, pramises to be the brightest star in the constellation. To-night "Alladin, or the Wonderful Scamp," will be presented, on which occasion Ella will play a banjo solo and dance a clog hornpipe.

PITTSBURGH THEATRE.—"Ixion, or the Man at the Wheel," is the attraction at the Pittsburgh Theatre this week, with Miss Jennie Engle as Mercury. To-morrow night officers Rook and Havis, door keepers, will take a complimentary benefit.

MASONIC HALL.—The Haverly Minstrels, who, for two nights past, have been drawing crowded houses at Masonic Hall, will give a matinee this afternoon and an entertainment to-night, which closes their engagement.

A Feud.

The colored population of Church alley have been considerably agitated, of late, by a feud existing between Mrs. Jane Black and Mrs. Betty Snively. Affairs at times have been quite exciting, and on various occasions the public tranquility has only been maintained by the interposition of the law's strong arm. After a quiet of several days, the quarrel was renewed yesterday morning with unusual fierceness, and promised severe results, when Mrs. Black, thinking "discretion the better part of valor," with becoming wisdom retired to the magisterial office of Alderman Strain, and made complaint against her opponent for disorderly conduct. Mrs. Snively accordingly was compelled to attend a hearing before the magistrate, at the conclusion of which she was bound over to keep the peace, hereafter, towards her rival.

Alleged Unprovoked Assault.

Robert E. Jackson, a colored man, made information before Alderman McMasters, yesterday, against Wm. Jones, of the Mayor's police, for felonious assault and battery. The prosecutor alleges that he was standing on Wylie street, near Fulton, when Jones came up in an intoxicated condition and commenced an unprovoked attack upon him. In the scuffle, Jackson alleges, he was knocked down three or four times, and when he attempted to run away, was shot at by Jones—the shot fortunately not taking effect. Warrant issued yesterday.

It is Seldom that we use the columns of this paper to "puff" or notice the "thousand and one" articles known as "Patent Medicines." We, however, vary from our rule in the present case, that we may call attention to the article known as "S. T.—1860—X., Plantation Bitters." We desire it understood that we do so without any solicitation or promise of benefit from the proprietor or other interested parties. We simply do it as an act of duty towards those who are laboring under physical disabilities, weakness, and the various complaints arising from impurities of the blood. Having used the Bitters at the instigation of a friend, (and, we confess, with some misgivings at the out set.) we found them a most valuable medical compound, and to our great satisfaction, accomplished the object for which they were used.
